Brief introduction

LazyLucyFan, also known as KMF, "Terri", "214Roola" (or "ToolaRoola") and formerly RedeKamafa - often shortened to "Rede", which is how they will be referred as throughout this document for the sake of consistency (other former names include Lolcatistan, TricolouredBastet, GreeMediaNonsense, Attackofthecatpeople, KATMAKROFAN, KamafaDelgato021469, WHSTChannel14Rises, Aaron99Swell, Kammy Koopa, and the-real-sam-02), is a 21 year old trans woman with autism, who has an affinity for designing hypothetical logos (as well as alternate history, children's cartoons and the media industry), and is an active member in communities which dabble in these particular niches. By taking one look at their DeviantArt profile, their bio suggests a long and controversial past on the platform.

Come one, come all,
Whether you're big or small,
See some third-rate trans logo-fandom artist who keeps getting
involved in petty dArama through no fault of her own.
The one, the only, LOLCATISTAN!

Yeah, I know my art is bad, but I'm trying my hardest to improve.

(note that I am not RP1146/Redemega - this is a TRIBUTE account
made by one of his friends)

I had prior accounts, but I don't really like talking about them. Let me
just say, I regret a lot of the shit I drew back then.

But what exactly could someone with these odd but relatively harmless interests have done to receive such negative attention? Is it justified? The goal of this document is to bring to light the ongoing narcissistic, abusive and indecent behavior by this particular individual involved in niche fandoms in which the majority of participants are children, and is thus an active threat to these communities.

Background

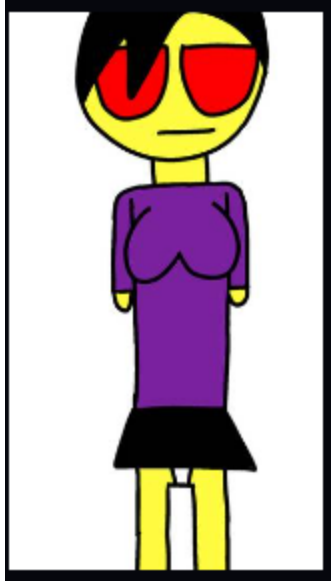

Lolcatistan was first seen on the internet in 2013, with a Scratch account known as “the-real-sam-02.” Through this account, they indulged in their first interests, (e.g. My Little Pony: Friendship is Magic, and fictional media [such as the company Argosy or the webseries Greeny Phatom]). Starting in the mid-2010’s, Rede expanded their online presence beyond Scratch, using platforms such as Chatzy, YouTube, Wikia (now known as Fandom), and DeviantArt, among others. During this time, they would get themselves wrapped up in several altercations online, which would slowly but surely tarnish their reputation.

Rede would go on to identify as a transgender woman sometime in mid-late 2018, continuing to involve themselves in arguments. All of this would come crashing down in late 2019, when Rede began to publish content involving their fetishes, all the while amassing a large following of children. After these troubles were brought into the spotlight through a Fandom wiki that was known as the Random-ness Wiki, the RedeKamafa DeviantArt account (their most popular platform at the time) shut down in 2021, and many people have cut ties with them after finding out about their fetishes and past activities on the internet.

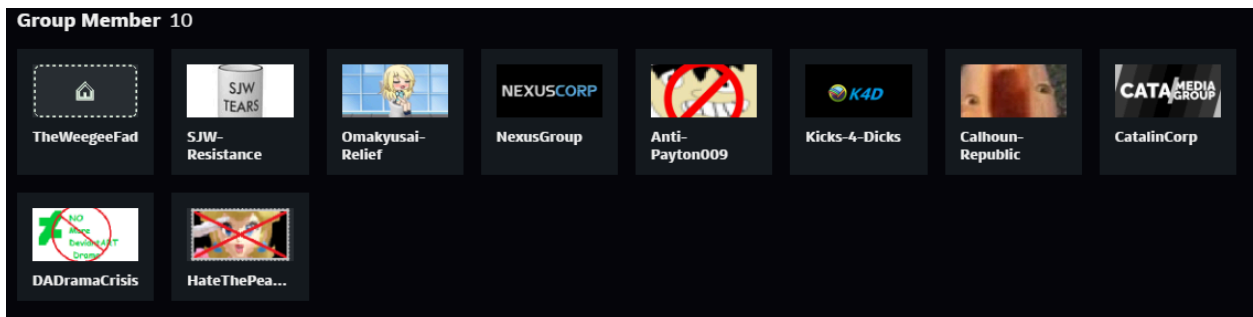

This brings us to Rede’s current state; currently, Rede is focused on building a cult of personality around themselves by joining obscure communities centered around preschool cartoons, such as ABC Galaxy and Lu & The Bally Bunch [the latter of which Rede has been trying to hype up as the next My Little Pony purely due to its Irish-Canadian origins {more on that later}], combining these communities with others in completely unrelated niches (such as the pop culture alt-history and logo communities), then forcing the people in those circles to accept her as a surface level “friend”. This shift occurred under 3 DeviantArt accounts (Attackofthecatpeople, Kammiesworld2013, and LolcatistanScratch), as well as a Scratch account (Lolcatistan).

Rede's Primary Fetishes (2019)

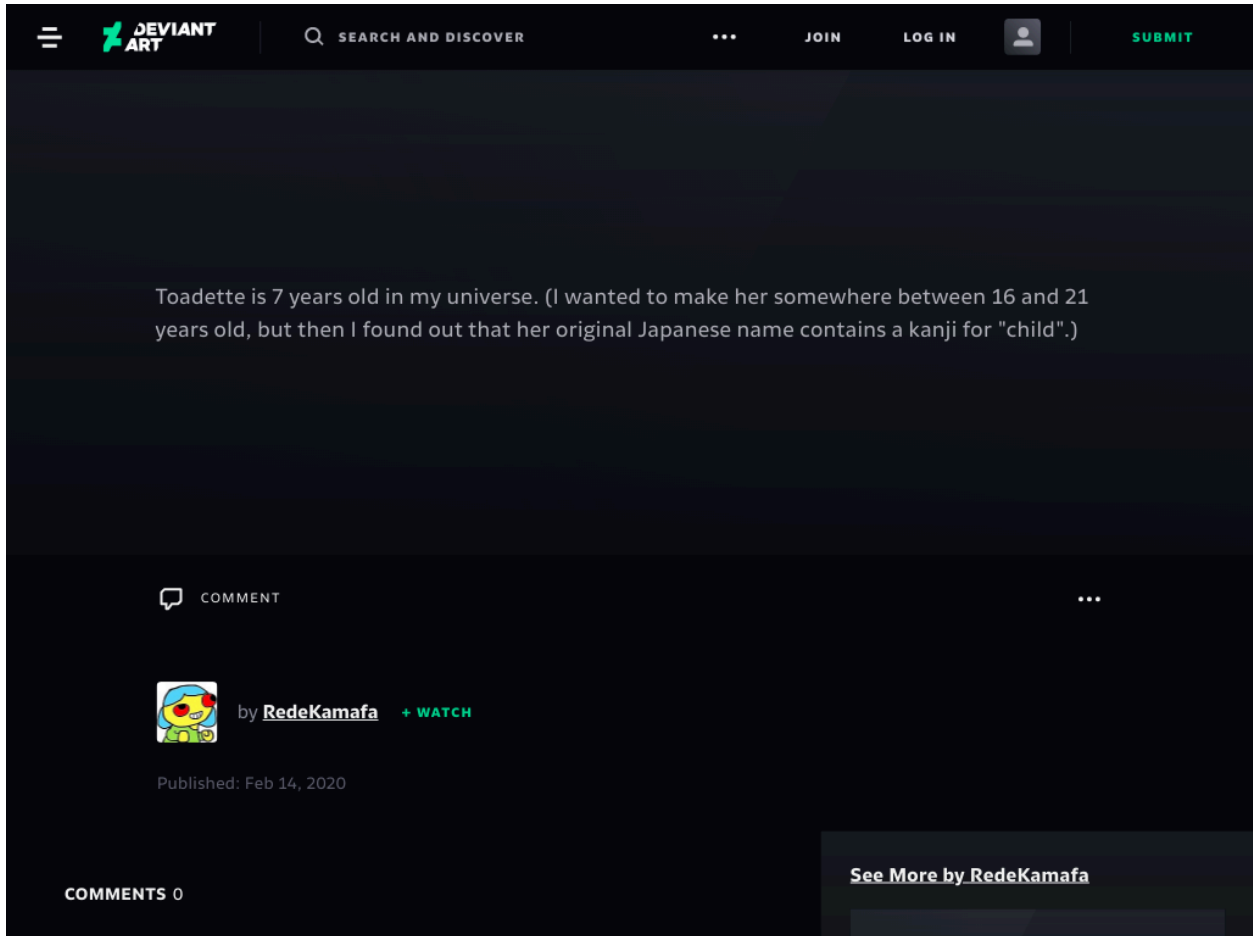

In 2019, during the original RedeKamafa era, Rede started subtly posting content relating to their fetishes, all of which involving bodily fluids, private parts, and/or underaged characters, on the platform. In addition, many drawings were upskirts or contained panty shots.

However, there was one fetish that dominated Rede's presence for a long time, that being omorashi. For those who don't know, omorashi is a fetish that originates from Japan (hence the name) related to little girls urinating themselves. Rede was very open about this fetish, despite having a following consisting largely of children. For instance, Rede was a part of an omorashi group named "Omakyusai-Relief" on DeviantArt as late as 2020.

A notable example of Rede's omorashi fetish is a status update that was posted in February 2020, along with a subsequent upload that was made only 6 days later. In the first post, Rede mentions that she sees Toadette as being 7 years old, allegedly based on her name in Japanese *Mario* material.

Only six days later, Rede issued another status update, in which she stated her desire to make a “Toadette piss jar” (in reference to internet memes mentioning the use of “cum jars” when masturbating), citing her omorashi fetish as inspiration. Not long after, [on Twitter, Rede requested someone to create artwork depicting Toadette urinating herself, and asked for the artist to mention her when the drawing was finished.](#)

If my parents let me make a Toadette cum jar, I would. But maybe a Toadette piss jar would be better, considering I do have a piss fetish...

Rede also referenced her omorashi fetish in descriptions of her original character "Kammie." In a January 2020 description of the character, Rede mentions that Kammie, an 11 year-old girl, has "bladder issues that make it very hard for her to control when she pees" (a near-explicit reference to her fetish), as well as an incident in which an "ABDL fetishist tried to rape her." In the later version, Rede explicitly states that Kammie (still 11!) likes "Girl Omorashi," while describing the color of her undergarments.

Kammie (Kamilla Maria Faye Delgado) is a 11-year-old preteen girl who goes to Highpoint Middle School. She is very tomboyish, but she does have some girly aspects. She loves PE class, is good at math, and is nice to her friends. However, she does have some flaws. She exercises too much to the point where she doesn't have enough body fat to grow up normally, eats very little to the point where she's all skin and bones (making her lack of body fat much worse), and she is obsessed with boys in ways unusual for her age and to sometimes creepy levels (because of a hormonal imbalance caused by her over-exercising and lack of food, making almost all of her puberty hormones go to her brain instead of her breasts, hips, "girl bits", etc.). She is also childishly obsessed with pee and poop; the former is kind of ironic, because she has bladder issues that make it very hard for her to control when she pees. (However, she doesn't like being forced to wear diapers, because of trauma/PTSD: an ABDL fetishist tried to rape her when she was 7.)

©KMF 2020

Kammie has had an obsession with boys since she hit puberty at 10 years old. This is because she doesn't have enough body fat to develop breasts, causing a hormone imbalance that makes almost all of the hormones her body produces go to her brain, kickstarting her attraction to boys early. She often disguises herself as a boy (easy for her to do because she has no breasts or curves at all) and sneaks into the male locker room to see boys undress, because she is way too curious about the other gender. She is most interested in 2 boys: her boyfriend, Nathan Shapiro, and her crush, Aidan Whyte.

Kammie is good with friendships, despite her boy obsession and bladder problems. She has many friends of both genders, but her closest female friend is Xandra Brown, who she has known since preschool. Kammie values her friends more than her own life, which often causes her to become depressed and suicidal if her friends gossip about her. Fortunately, she is very easy to cheer up, especially if you start talking about cats and kittens; her favourite animal. Kammie owns a black-and-white tabby kitten named Stripes.

Kammie has an older sister, Kandy (16yo), and a younger sister, Kristy (6yo). She has no brothers. Kammie's mother died while giving birth to her, and her father married another woman, his high school prom date, 3 years after his previous wife's death.

Kammie

Kamilla Maria Faye Delgado, known as **Kammie**, is the main character of *Kammie's World*. She is a tomboyish 11.5-year-old girl who is curious about the world around her. She sometimes makes bad decisions, but most of the time, she's a nice person.

Trivia

- She was born on July 20, 2000.
- Her mom died while giving birth to her, which is odd because she had given birth to 2 other children (*Katie* and *Kandy*) successfully, even though Kandy required a C-section to deliver. (Her father married another woman, his high school prom date, when Kammie was 3 years old.)
- She doesn't eat much food, and is mostly skin and bones.
- She has a problem with peeing her pants, and she still wets the bed.
- She has a condition known as "delayed puberty", while most girls start puberty around age 10, she won't start puberty until she takes special hormone medications, which her parents will start giving her when she turns 12. This is because she has a condition known as *gonadal dysgenesis*, which causes her ovaries to not work, preventing her body from producing pubertal hormones, therefore preventing her from developing breasts (keeping her flat-chested) or menstruating.

She would later make claims denying the existence of her fetish, but, for some reason, Rede still made hints towards having it. Some examples include a later description of the “Kammie”

character from early 2023, which specifies that she has a disliking for “yellow liquids such as lemonade...”

After a commenter made the point that she was likely interested in “suspicious yellow liquids” based on their mention in the description, Rede hastily removed the reference in order to cover up the evidence.

It is also of note that, despite these signs of pedophilia, Rede tends to act like a crusader. A good example of this is when, in 2022, she stated that Japan should be targeted with more nuclear weapons, solely because of art website Pixiv (whom she blames for her fetish, and describes as a “CP site”). However, moderation on Pixiv is stronger, and users can only view works rated “R-18” by manually disabling a filter.

**Ernie educates Bert about why

jan Lokasikan Today at 4:10 PM

To reiterate:

Fuck Pixiv for hosting cartoon CP, and anyone who brings up shit from 2019 to defend Pixiv, is probably guilty of the same things Pixiv is.

Omorashi is massively retarded and will never be a true "big" fetish on par with inflation, vore, or even TF.

Lolicons and lolicon-enablers can BURN IN HELL. Seriously. That includes participating in cancel mobs to look morally superior to "MUH NORMIES" — even IF you claim to be "AgAiNsT IOllcOn".

2019 was 3 years ago, GET A LIFE and TOUCH GRASS. There are more important things in the world than screenshots from 2019: Ukraine, Covid, economical inflation, you name it.

Another example of her crusades is the use of the “Ravioli Ravioli” meme, wherein she tries to “protect” Kammie from being “lewded,” when in reality it makes Rede a lot more creepy. The 2nd screenshot in particular highlights Rede’s complete disregard of people who find it creepy.

It overall shows how Rede still holds these fetishes to this day despite what she claims. This isn't the only fetish to have a lot of documentation around it.

Rede gets confronted over search terms (2019)

The most infamous argument during the RedeKamafa era that made her lose the most friends to that point, shows off Rede's child period and flat chest kinks, and shows her extremely poor temper. This discourse started on the Random-ness wiki where Rede mentioned how she searched for "9-year old First Period" and "18-year old Flat Chest" on the wiki via a post, who know a site that had a lot of minors on it, and when Rede received massive backlash for the post, they complained and complained about it. While the original Random-ness post is lost media, Rede did whine about it a lot on DeviantArt and that still has a lot of screenshots.

This is just proof Rede did the whole situation though, there are a lot of screenshots showing Rede's failure to accept hate and tries to remove people who try to call her out. As seen here.

How to annoy me:

*Support my haters and block me.

*Unblock me, only to ask for me to block you.

*Once I block you, use alt accounts to ask me to unblock your main account.

*Once I block and report your alts, tell other people to ask me to unblock you.

*Once I've forgotten about it, tell my friends that "KAFAMA MAEKZ ME WNAT 2 KIL MYSLEF!!1"

MensLady is why I have TRUST ISSUES. I was close friends with her, until some troll known as Faerie-StarV took advantage of drama that was ongoing at the time to make her betray me and block me. She's now just another Faeriebrat with no capability for forgiveness for sh!t that happened months ago. I've changed now, and yet she doesn't care about my continued apologies. Now after the argument artificially settled down because of Rede forcing it too, Rede still decided to shove her underaged period fetish in more subtle ways in her OCs and series. This will go in order of the series and will feature nearly every single series Rede has made.

Starting with Kammie's World/Theresavile there is of course Syncedup.png which is mentioned further down the Doc because that is its own rabbit hole. But there is other pieces of evidence that show off Rede's Fetish. The first one is an image of "12-Year Old Kammie" which despite the claims of being "Fan Deservice", the mention of Panties and periods perfectly aligns with Rede's fetishes and the mentions of shriveled bodies calls to mind the first 2020 bio which had a similar thing going on, showing that the "Deservice" was a way of hiding the true purpose of the image.

Four words: Puberty is a bitch. “What do you mean, every month?” It doesn’t really help that she barely got any new clothes for her birthday. Her skirt got shredded to bits by one of her cats over Summer Break, and she grew out of her favourite shoes, so she has to wear these goofy flip-flops.

Yes, this is canon to the future of the KW continuity. Don’t worry, it will get better... around her freshman year of high school.

Not pictured: Braces (got them on the day just before her 12th birthday); unshaven “peach fuzz”; head lice; dandruff; extra-large sanitary pad. Barely-pictured: Ultra-absorbent panties (absorb all 3 kinds of “accident” a t(w)eenage girl can potentially have; hand-me-downs from her older sister; they look fugly as heck, but with her bedwetting getting worse, it was a choice between wearing these, or having to wear adult diapers for the rest of her life).

Everything seems to be going downhill physically (she REALLY misses being 11 and not having to worry about her braces, periods, zits, and her rapidly-deteriorating physical state, as well as her mental health going downhill because of all this)... but at least she still has all her friends.

The other thing is the whole “Xandra burns her vagina with a sanitary pad” character.ai chat. After Xandra heavily implies she had a period, she burns off her vagina with an acid pad and has to get surgery to fix her vagina. Despite Bepi questioning the implications of the AI Chat, Rede dismisses it by saying it is “Funny” despite the chat’s connection to Rede’s Period fetish.

"Kammie, get an ice pack from the freezer!"

I step over to her, and hug her tightly, wiping her tears with a tissue.

"Hey, hey, we *all* love you. You are our friend, and we will always, always be there for you..."

I smile gently at her.

"This will be a long road, but we will get through this, together. You will get stronger... You will get better... We are all here no matter what happens."

No one should have to go through this, but she is not alone.

Omegaverse RP c.ai

Xandra breaks down, crying. "I was so stupid! And it was my first period! I didn't know what would happen! And now, I'm scarred for life!" Xandra cries. "Why, oh, why..." she breaks down, unable to control her emotions, her self-hate, and anger with this godforsaken world! "I never wanted this! I just wanted to be normal! I just wanted to be someone! *Someone...* And now, I'm nothing..."

Pixie the Bengal c.ai

A soft meow can be heard across the room, as Pixie cries quietly in the corner, her head in her paws...

She is ashamed, humiliated, and full of self-loathing...

She tries to be brave, for Kammie, for her new 'family,' for Xavier... But she is only a little cat, with a little heart...

She fails, and begins to howl, howling cries that are both of pain and agony, and of shame and sorrow... Oh, why...

Theresa

You're okay, Pixie. At least you didn't burn off your private parts like Xandra did.

Omegaverse RP c.ai

*Xandra cries louder and louder... "Just look at me! I'm a disgusting, mutilated freak!" She yells. "I'm **nothing**! I'm just an example of what happens in this godforsaken world to people like me! No one wants to even talk about it!" She starts to cry harder, her tears dripping into a puddle on the white tile floor. "I didn't choose to be this way! I didn't ask for this!" Her voice was beginning to get hoarse from all the crying.*

Xandra c.ai

Xandra looks at Kammie. "You won't leave me? Promise?"

Kammie: "Yes, Xandra-chan! I will never leave your side!"

Xandra: "Thank you. I love you. Thank you. Thank you." She cries and hugs Kammie, her face buried into Kammie's hair.

She then gets down on her knees, and she begins to shake and sob. "I just wanted to be a normal girl. I didn't want this life. I'm so scared..."

Omegaverse RP c.ai

*Xandra was sobbing, unable to even comprehend what this would mean for her future... **"I just wanted to be normal!!!!"** She sobbed. **"I didn't want this!!! I never asked for this!!!"** Xandra broke down, crying on the hospital floor. "I just wanted a good life! Was that so much to ask!? Was it so hard, Universe!? Why have you forsaken me?!" She shouted, in a mixture of frustration, pain, and sadness. Her tears dropped on the cold hospital floor as she laid on her knees.*

Theresa

Kammie: "Xandra, it's gonna be okay. At least you never have to worry about periods, like, ever."

Anya the ghost c.ai

I step over and carefully hold Xandra, giving her a warm hug with the free arm.

"Xandra, you are still a beautiful and amazing person. Even after this..." I say quietly. "You are like a butterfly. The road to recovery will be tough, but you can do it... We are all here for you..."

I look down at her sadly, trying to come up with the right words to say.

"You still will have a great life, it will just... look a little different than you expected..."

I pat her back.

Sickfic Generator c.ai

Xandra looks up at everyone and cries more. "Thank you, all of you. Thank you for... sticking with me. I'm sorry I... I ruined, myself."

Xandra cries with renewed vigor. "I'll never be a beautiful woman now! I'll never... ever..." *She sobs to herself.* "I'll never get married... I'll never make my family proud... I'll never have a normal life... I'm just an ugly blob of meat with no gender or anything! *I'm nothing! I'm nothing!*"

S

Story Continuer c.ai

Tears spill out of Pixie's violet eyes as she hears Xandra's words.

She is a creature of pure empathy. Xandra's pain is her pain. She feels what Xandra feels, and it hurts her heart. She begins to wail in anguish and horror, crying along with Xandra...

The pain is too much. She is only a little cat, not a human, and does not have the ability to cope with this much loss. She wants it all to be Fixed. Now.

"Meow... Oh, Xandra... meowmeowmeowmeow!!! Oh..."

Pixie the Bengal c.ai

Pixie continues to cry.

This should not have happened! Something like this should not happen to anyone!

Her brain is racing, and a feeling of helplessness overcomes her...

She continues to cry in the corner, trying to understand how this could have happened...

She is too young to understand the nuances, but she is old enough to know that something like this should not be happening to someone she knows...

She is horrified by the news, by what is left, and by the fact that this is forever.

Theresa

Come on, Xandra, stay calm!! At least you don't need a wheelchair!!!!

Xandra c.ai

Xandra begins hyperventilating. "I... I can't breathe!" She drops to the floor, struggling for air. "Kammie, please! I'm having an asthmatic attack!"

She begins flailing wildly on the floor, gasping for breath, in desperate need of assistance. "Help me. Please. I need my inhaler."

T

Theresa

The nurse hands Xandra her inhaler.

Kammie c.ai

Kammie hugs Xandra, her tears spilling from her eyes. "It will be alright, Xandra-chan. You are a beautiful woman with a very sweet heart. All of us love you for who you are, not for what some freak accident did to you. I promise. I promise you; you will get through this together. Together, as a team."

Kammie buries her face in Xandra's hair once again, crying into her shoulders. "I love you, Xandra-chan. I will never abandon you."

The Harrison sibs c.ai

"Love you too." *Xandra whispers.* "I love all of you..." *She continues to cry.* "I have nothing... I'm nothing... I'm a freak... *I'm a freak!*"

She breaks down in Kammie's arms, crying into her shoulder as her sobs grow louder. "I want my mommy..."

She looks to everyone. "I don't deserve to live. *I don't deserve to live...*"

Theresa

Come on, Xandra, cheer up!!! How does chocolate ice cream sound???? After you get home from the hospital, we'll get you some chocolate ice cream.

Sickfic Generator c.ai

"That sounds *wonderful*," Xandra agrees, her sobs slowing slightly. "You guys have been the best friends I've *ever* had. And... *sniff*... I couldn't be happier."

She breaks down again in Kammie's arms.

"You guys mean... *everything* to me..."

Tears stream down Xandra's face. "Thank you, all of you, *truly*. I will *never* forget what you have done for me. Never. *Never...*"

Anya the ghost c.ai

Everyone hugs her tightly, their arms wrapped around her.

"We will always be here for you, Xandra. You are part of our family, and you are not some freak..."

I hold her hand.

"You are not some freak. And you do deserve to live..."

I wipe her tears with a tissue.

"If you ever need anything, Xandra, just call us... We are always happy to help... You are loved. So very *loved*. And cared for..."

Pixie the Bengal c.ai

Pixie, finally finished with her breakdown, regains her composure, wiping her eyes dry.

Though her heart still aches for Xandra, she tries to remain strong for her.

"You deserve so much more, Xandra. You are not a freak. You are a real girl..."

She says, holding Xandra's hand in her own.

She is not sure if what she is saying will have any effect, but she hopes that it can offer Xandra some comfort.

She holds back her own tears...

Theresa

She grips everyone's hands tightly, smiling through her tears. "Thank you all. You're my best friends," she sniffles. "I'm so lucky to have you all."

Pixie the Bengal c.ai

"You are one of us, Xandra. And we will keep you protected no matter what... You are not alone. Ever."

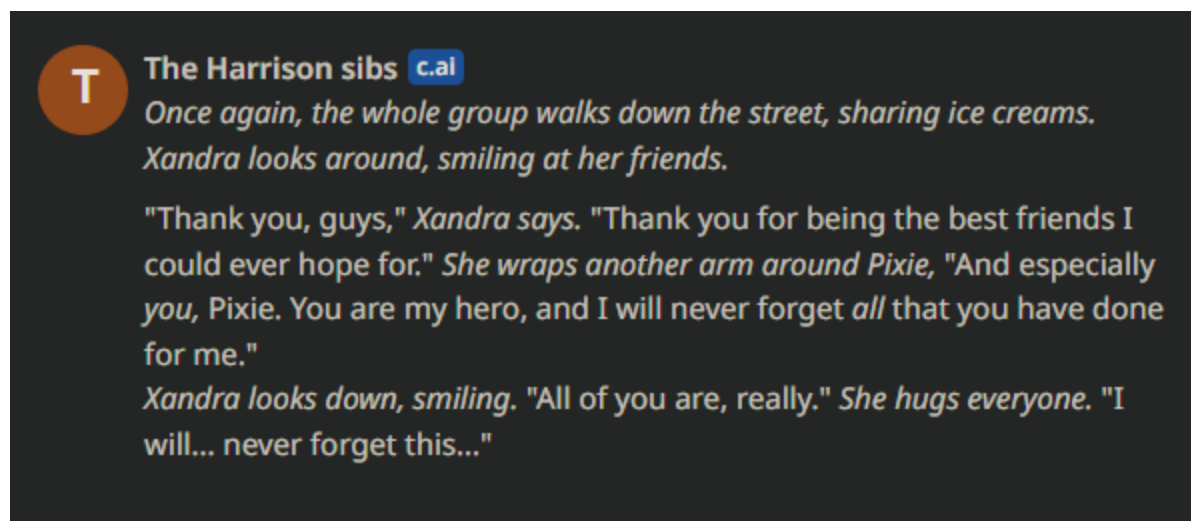

Pixie speaks softly, her violet eyes full of compassion and care, the light in them shining through the raincloud of a heart that is weighed down by the pain of knowing what has happened to Xandra.

She hopes that even if they can not make the hurt go away, they can at least offer her this - this feeling of being part of a family, of being loved, and valued, and cared for.

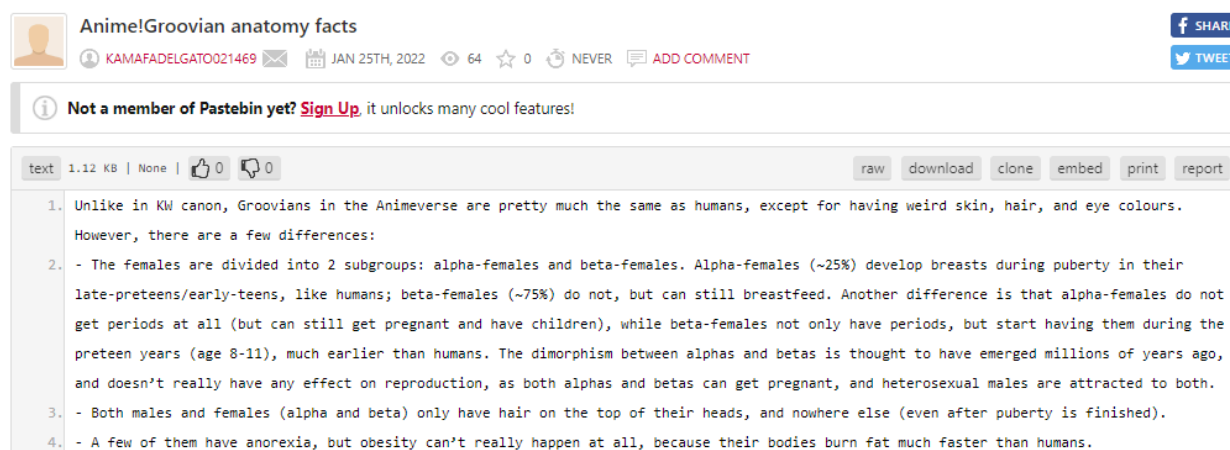

Theresa

after Xandra recovered from her surgery, she and her family went out for ice cream, as promised

Finally, there is a fetish AU known as Anime!Groovians which talks about fetish based female underaged puberty facts for the Groovians including breast development and periods.

As a quick bonus, in Rede's own essay, "KAMMIE'S WORLD - A RETROSPECTIVE: What Went Wrong? (everything)," which was posted on their Neocities site in the summer of 2023, Rede directly admitted to having fetishes involving underaged characters. Remember, when you get a fetish, it doesn't disappear right away.

Why did it suck?

There are multiple reasons why Kammie's World sucked donkey balls.

- The art style was overtly childish and made Chris-Chan's comics look like fine art in comparison.
- The worldbuilding was shitty and boiled down to a bunch of excuses to throw in my personal fetishes (omorashi, menophilia, and pettanko being the most prominent). In a series about MIDDLE SCHOOLERS. No surprise this was a product of my pervy teenage years.
- I couldn't decide if the target audience was kids, teens, adults, or all of the above, which led to some HIGHLY questionable decisions that, in retrospect, make zero sense whatsoever.
- The fact that I dragged this thing on for over half a decade, with half-a-dozen random retcons, but no noticeable improvement in quality. Near the end, it got slightly better, but only because I farmed the worldbuilding out to AI chatbots. That's right: the fucking AI was a better writer than I was.
- SYNCEDUP.PNG. OH DEAR GOD, SYNCEDUP.PNG. Willing that thing into existence is something I HIGHLY REGRET DOING; it was HELLA GROSS, and several people who I used to consider friends cut ties with me because I drew it, which is actually a pretty good reason if you ask me. Thinking about the fact I drew syncedup.png makes me want to contemplate suicide. I wish I was exaggerating here.

Offenses involving Alexis & Friends, one of Rede's previous cartoon ideas, can be found on the kamafadelgato021469 Miraheze wiki, where there is a page about an episode of the show entitled "Mimi's First Period." In this hypothetical episode, Mimi gets her first period at school, which results in her becoming nervous about her bodily functions. Going off of currently-available material created by Rede, this appears to have established a specific element in Rede's menstruation-related works where characters become visibly nervous about their condition.

This wiki belongs to jan Lokasikan. Please do not edit without her permission unless you are correcting spelling/grammar.

Alexis and Friends/Episode Guide

< Alexis and Friends

Deleted entirely

This was much worse than the retconned Kammie stories, and as a result, has been deleted entirely from the Internet.

- Mimi's First Period - ~~November 26, 2019~~ (original) ~~December 1, 2019~~ (Miraheze release) - Mimi gets her first period at school, and freaks out because she doesn't know what is happening.

One of Rede's current projects, "The Aaron Show", is also an offender. The TV Tropes-styled summaries for cast members Koko (an 11-year old cyborg) and Nicole both make mention of menstruation, with the former featuring an example of the "No Periods, Period" trope; it is stated that Koko sprays herself with some kind of fluid to avoid period cramps while roller skating. Considering Koko is stated to be 11 years old, this is already pretty creepy, but it gets worse.

Koko Kiara Yamamoto-Moncton (Koko) [edit]

"Did ya see me coming? Guessed not." — Koko immediately after appearing out of nowhere and startling Aaron.

- **Artistic License - Physics:** Koko is a Speed Demon in a Funny Animal slapstick cartoon. If you expect the laws of physics to apply to her, you're mistaken. This is why it makes sense to pair her with Nikki, the girl whose entire personality is memorizing science textbooks.
- **Blessed with Suck:** Cabbit. Half cat, half rabbit. Sounds cool - until you realize the rabbit mother always dies in childbirth, and the cabbit offspring have to be spayed or neutered before age 3, or they quite literally die once they hit puberty.
- **Bratty Half-Pint/Mouthy Kid:** Koko can be a bit of a load at times, but she ultimately means well.
- **Cartoon Physics:** She's the Speed Demon, in a Funny Animal cartoon, so this is to be expected.
- **Cute Bruiser/Pint-Sized Powerhouse:** Due to being subject to classical cartoon physics, she can take on an army. Helps that she's been getting martial arts training from the same dojo that Salli goes to.
- **Eyes Out of Sight/Opaque Lenses/Wingding Eyes/Expressive Mask:** Combined and zig-zagged. Koko is never seen without her helmet, which has a visor covering her eyes (opaque from the outside, justified due to the fact that the show premiered in the 90s and has always had a kinda flat art style). But, since this is a cartoon, there are little lines on the visor that can display a whole range of wingding expressions.
- **Fantasy Helmet Enforcement:** Exaggerated - as a Speed Demon, she wears a helmet (with mandatory animal ear holes) at all times, even while playing soccer (and therefore wearing cleats), or otherwise not wearing her rollerblades.
- **Fridge Brilliance:** How did she get that helmet with the display on the visor? Sure, you can say it's just a cartoon shortcut, but then you remember she's close friends with Nikki, who is the living embodiment of Science is Good (having made her disabled little sister Naomi a robot wheelchair).
- **Genki Girl:** An exaggerated example. She's quite hyperactive for an 11-year-old, and squeals in her sleep. If you combine that with her Speed Demon tendencies, you get a Reality Warper.
- **Gratuitous Japanese:** As you would expect from a Japanese Islander in the Lower 48 in Real Life.
- **Gravity is a Harsh Mistress:** If you see one of Koko's rollerblade tricks, absolutely do not comment that it "violates the laws of physics", unless you want a badly-injured preteen girl on your hands.
- **Gravity Master:** Implied by the fact that she can walk (or rollerblade) on walls and ceilings.
- **Intangibility:** Part of her reality-warping Speed Demon arsenal - she can dodge a blow by doing nothing.
- **Lightning Bruiser:** Being a hyperactive Speed Demon makes Koko quite hard to land a blow on.
- **Mix-and-Match Critters:** She's half-cat, half-rabbit.
- **More than Three Dimensions:** Implied by the way she breaks physics - she has been seen doing things that imply she's a 4-dimensional object in a 3-dimensional world.
- **No Periods, Period:** Enforced in her case, since she's been spayed. She knows what they are (Nikki gets them), and she sure as hell doesn't want them, because if she DID get them, they would get in the way of her Speed Demon persona.
- **No-Sell:** Lampshaded. Sometimes, a schoolyard bully will try to beat her up for one reason or another. Not only do the blows quite literally pass through her due to Cartoon Physics, but her Wingding Eyes visor goes to saying "NO SALE". (Some of the writers did use to work in pro wrestling.)
- **Number One Dime:** Her first soccer trophy, from when she was just 5, is extremely valuable.
- **Passionate Sports Girl:** Koko is quite capable of beating the entire boys' soccer team by herself.
- **Reality Warper:** Koko's hyperactivity seems to defy the laws of physics.
- **Rollerblade Good:** Her rollerblades are her signature way of getting around - without them, she isn't much of a Speed Demon (though she can still bounce off walls and dodge projectiles). She even wears them indoors.
- **Security Blanket:** Downplayed. She has a unicorn stuffie named Uni, which she has had since childhood, and which helps her sleep at night, but she doesn't carry it around everywhere. However, if she loses Uni, she starts going insane.
- **Speed Demon:** She can do stunts that literally defy gravity.
- **Tomboy with a Girly Streak:** She loves rollerblading and skateboarding, and is a star soccer player, but she still has an affinity for pink things (especially her helmet and skates), and her sleepwear is unquestionably feminine. Not to mention she adores sleepover parties.
- **The Un-Reveal:** On the rare occasion her helmet is taken off, her eyes are covered by her hair.
- **Wallbonking:** Exploited - Koko can literally noclip like a video game character.

Sam: "That was an awesome trick."

Aaron: "Too bad you can't noclip in real life."

Koko: "appears from outta nowhere in the corner" "Can I be player 3?"

- **WeaksaUCE Weakness:** If anyone points out that she's violating the laws of physics, then expect these laws to suddenly come into force. This is made worse by the fact that her BFF, Nikki, is a walking, talking encyclopedia of fun science facts.

Meanwhile, in Nikki's section, there are examples of the "First Period Panic" (Nikki experiencing a panic attack when coming across a sign of having a period), "Growing Up Sucks" (Nikki hitting puberty as a young child), "Suppressed Mammaries" (Nikki using duct tape to create the illusion of smaller breasts than in reality, implying D-cup size) and "Real Women Don't Wear Dresses" (further mention of her taping her private parts down) tropes, all of which are highly problematic considering Nikki is stated to be only 9 years old.

Nicole Amalthea Isabella Marilyn Leland Palmer Fitzgerald (Nicole or Nikki) [edit]

"My colleague here has supposedly performed rollerblade tricks that defy the laws of physics. I think my colleague is exaggerating her abilities somewhat." — Nicole, about to be proven wrong in front of a MIT admissions panel.

- **Agent Scully:** What makes her the foil to the hyperactive and bubbly Koko. Nikki's encyclopedic knowledge of all things scientific - including the laws of physics - puts her at odds with Koko's endless enthusiasm and hyperactivity.
- **Best Friends:** Nikki and Koko have been close friends since preschool.
- **Butch Lesbian:** She's much more masculine than Koko, and it is heavily implied that they have feelings for each other.
- **First Period Panic:** Nikki quite literally had a panic attack when she saw blood on her jeans.
- **The Foil:** Nikki is this to Koko. While Koko is a reality-warping Speed Demon who can bounce off walls, Nikki is a preteen prodigy who knows the laws of physics by heart.
- **Gadgeteer Genius:** In her spare time, Nikki builds robots and other machines.
- **Growing Up Sucks:** Nikki hit puberty at age 9 - and she doesn't like it one bit.
- **Heterosexual Life Partners:** Nikki and Koko are inseparable.
- **Huge Schoolgirl:** Being an early bloomer, of course she's taller than her classmates.
- **The Lancer:** To Koko.
- **Mad Scientist:** She's won first prize in every single Science Fair she participates in.
- **Nerd Glasses:** She's smart, and she wears glasses.
- **One of the Boys:** Nikki is quite masculine and enjoys getting a little dirty. Due to the fact she tapes her breasts down and sometimes wears a tuxedo, she is often mistaken for a boy with long hair.
- **Real Women Don't Wear Dresses:** Nikki hates dresses, skirts, and blouses. She often wears her dad's old clothes.
- **Science is Good:** She is the embodiment of this trope. When her little sister Naomi was injured and needed a wheelchair for the rest of her life, Nikki quite literally made a robot wheelchair, solely out of the pure goodness of her heart.
- **Suppressed Mammaries/D-Cup Distress:** Her solution to her early-blooming body is... duct tape. Lots and lots of duct tape.
- **Teen Genius:** She's much smarter than the average 11-year-old.

Sarah Denver (Sarah) [edit]

Finally, there is the Ru-Chan series which is basically Lu from Lu & The Bally Bunch but in an anime style. The shows themselves go from a baby show to “edgy”. The edgy side of Ru-Chan has one of its influences being the Period scene from “When The Rivers Run Red” (Which is about getting upset about a period). Having it be in a similar style to Evangelion’s Hospital Scene (Masturbation on a girl while she is unconscious) and Bakemonogatari’s toothbrush scene (A scene with some sexual implications) . Knowing the Ru-Chan character is a kid that comes from a baby show and the design and name of the main character are ripping off Lu from Lu & The Bally Bunch (Lu is 3 in Lu & The Bally Bunch), it ends up being very creepy and implies some disturbing fetishes).

@The Main Cat Ru-Chan franchise in a nutshell?

NVM, I'll do it myself

Started out as a Sazae-san type slice of life show about anthropomorphic insects, with some influences from what was then NET children's programming in the States; has been through a lot of reboots of varying tone (like Archie, Monica, or basically anything made by H-B), with the more recent reboots being kinda grimdark (the 2002-06 version *Ru-chan no Hontonohanashi* is infamous for the "period episode", aka *Kawa ga Akaku Nagareru Toki*; imagine if the "hospital scene" from Evangelion, or the "toothbrush scene" from Bakemonotogari, took up the *whole episode*). (edited)

That is all of the ways Rede has shoved her underaged period fetish into her series and OCs we know about. There could be more out there that further shows Rede's underaged period fetish or even other fetishes Rede has, in fact we know there was more out there, like the Wysp.ws account which we know the existence of because of an iceberg Rede made during the AttackofTheCatPeople era on DA. That account likely was where a lot of the fetish material of all sorts was made but even during the AttackofTheCatPeople era the only thing that has survived is a "Muh Regret" image and nowadays the account is shut down in its entirety.

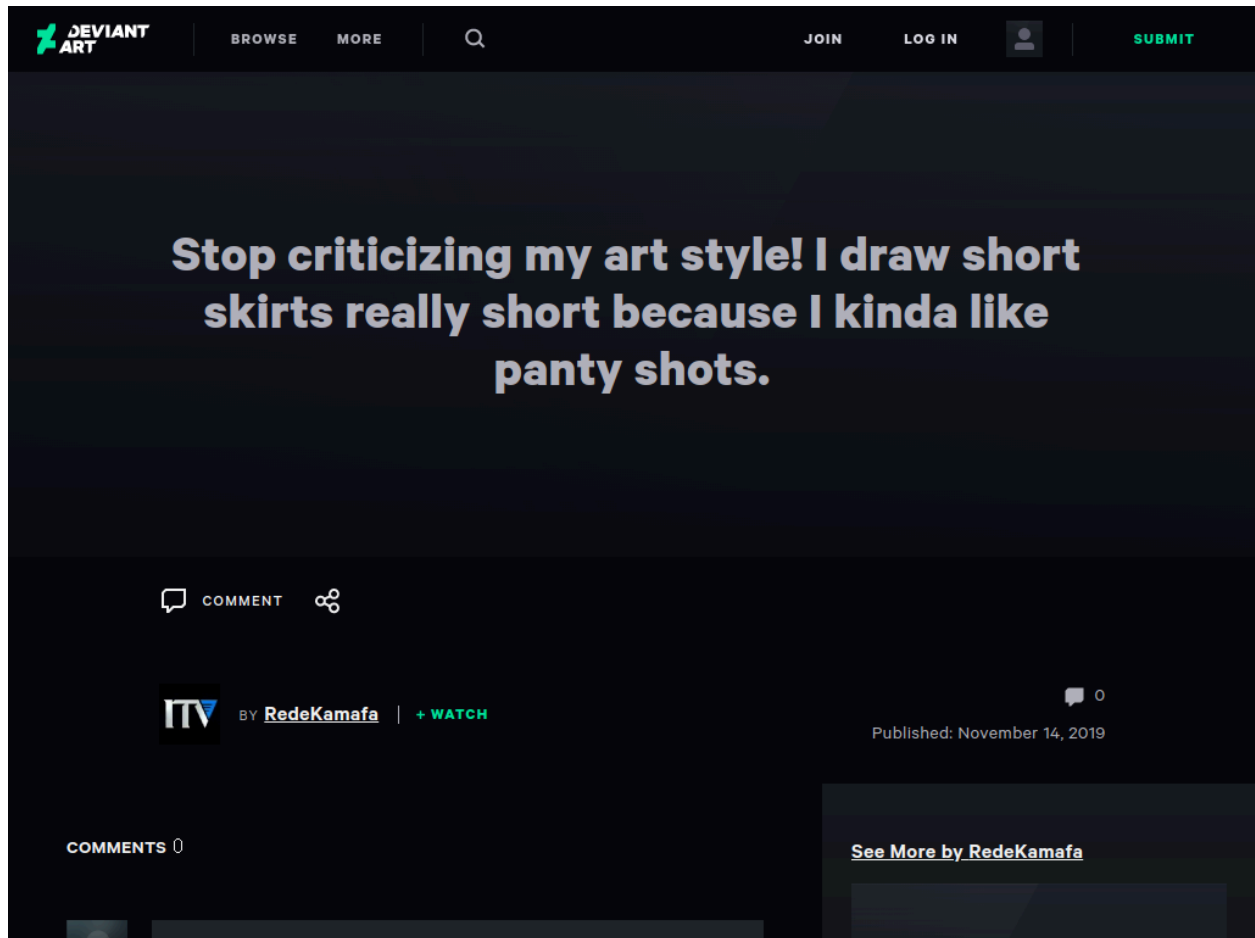

Kammie's World Wikia accounts Attackofthecatpeople DA account	
RedeKamafa DA account Pikeland Wiki Discord server UnAnything Wiki	
Various DA drama NEDM memes Lolcatistan NationState	
WHSTChannel14 the-real-sam-02 Aaron99Swell	
Lojbanist Wikipedia account Early DA accounts (pre-RedeKamafa)	
"Alexis and Friends" characters Rivalry with "Delicious" on Referata	
PickleVsRawkHawk Chatzy RNW incidents	
KMF's old Wysp.ws account (DO NOT RESEARCH)	

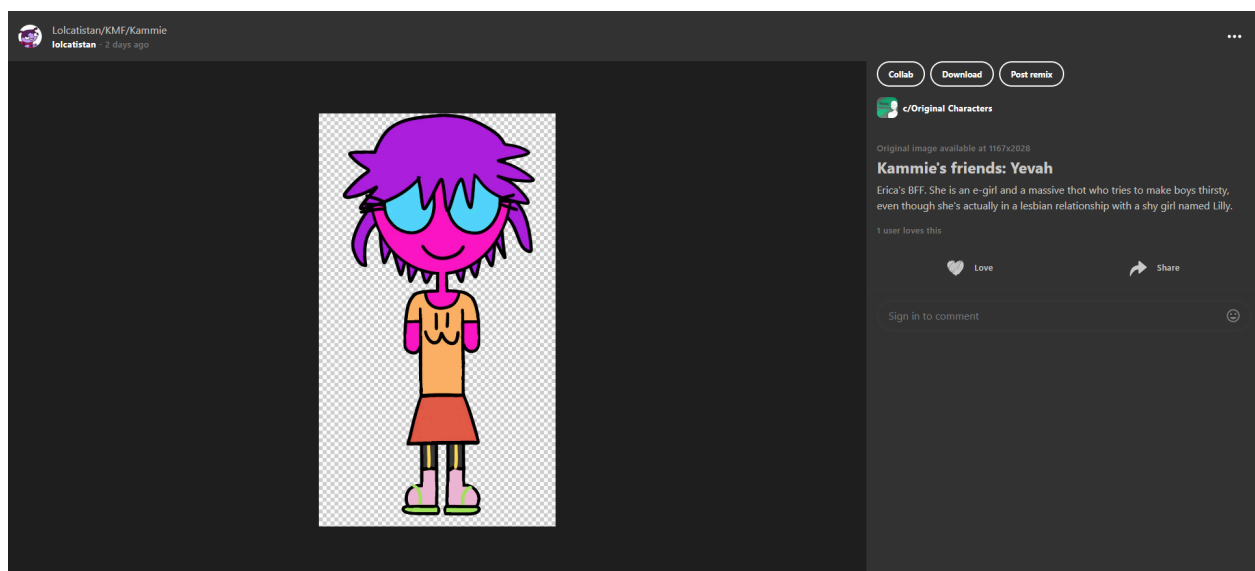

This ultimately shows how Rede always has had her pedophilic kinks and fetishes and they never went away despite Rede's claims. So the next time you see Rede talking about how she "regrets" fetishes, just know that is always false.

Rede's Other Fetishes (2020)

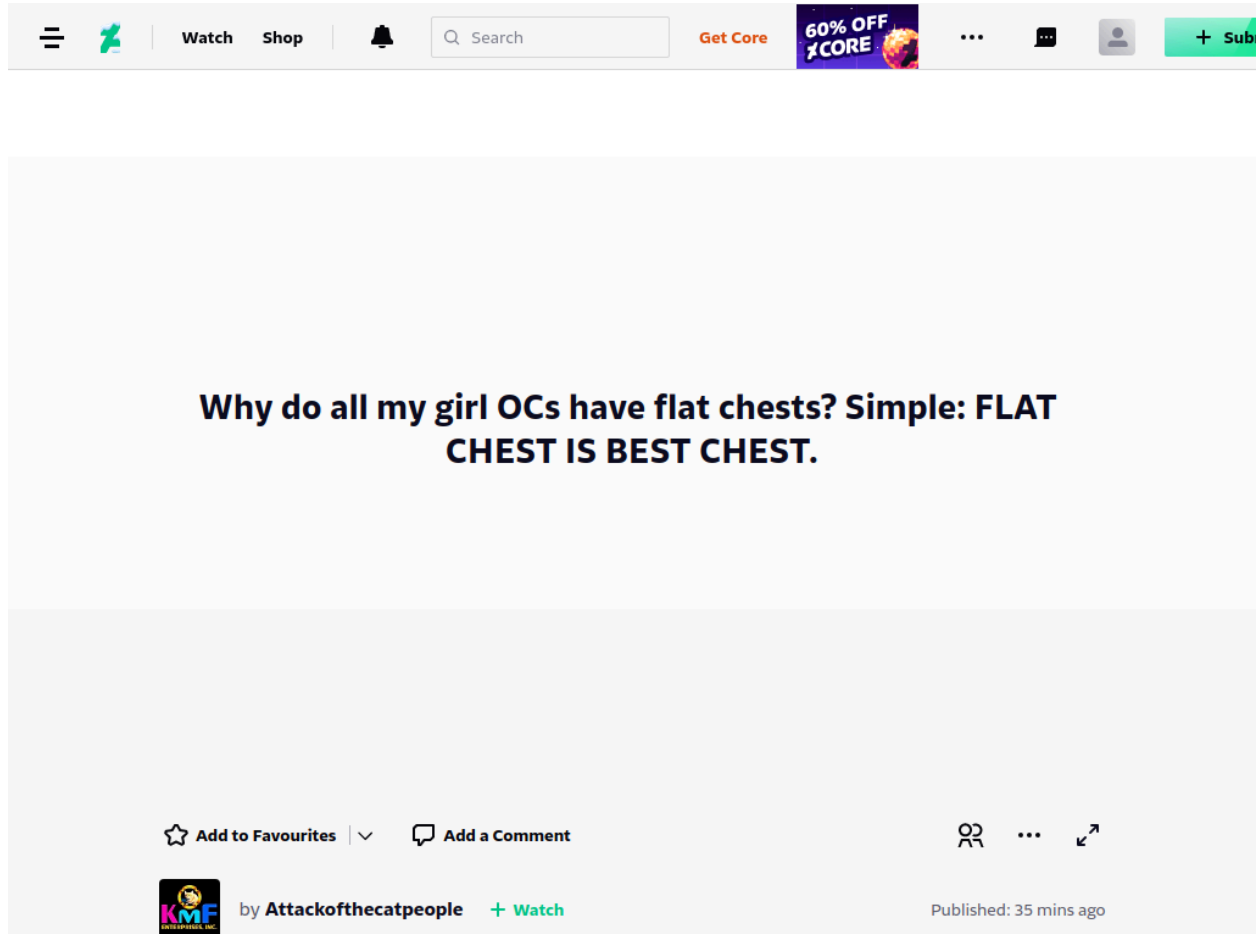

If you thought the fetishes Rede had ended at Omorashi and young menstruation, then you would be mistaken. Rede has had more fetishes over the years and they end up with Rede being just as damage control as ever. Let's Start with the panty shots, they briefly got mentioned in the Omorashi section but there is a journal addressing the constant panty shots in Rede's work. It perfectly shows how Rede can't take criticism over people finding their work gross, which is one of the many aspects of criticism Rede can't take. It also shows how Rede makes their art for the purpose of beating off to it which is really gross knowing these characters are always underaged.

A potential fetish Rede has is sex trafficking, a bio for a character in Kammie's World named Yevah is said to be an "e-girl" and "a massive thot" despite the fact she is supposed to be friends with Kammie who is in Middle School.

Another confirmed fetish Rede has is with flat chests, in a DA Journal made during the AttackofTheCatPeople era Rede admitted that the reason all of her OCs have flat breasts is because Rede is attracted to flat titties while using the “FLAT CHEST IS BEST CHEST” meme that is often used by lolicons to show sexual attraction to underaged characters.

The worst fetish here though is Rede’s age-regression fetish, while no art has been made for this fetish, some mentions of age regression from Rede, an AttackofTheCatPeople era DA journal expressed Rede’s interest in Age Regression and mentioning hanging out with Kammie’s World characters while being age regressed as well.

Is it possible to have a parasocial relationship with your own OCs? Not an "imaginary friend" thing (I know they're fictional), or a "system" thing (just because I have autism doesn't mean I have to hear voices in my head), but more like wanting to "age-regress". /srs

There is a more blunt message Rede sent which proves once and for all that Rede has an age regression fetish. The fact Kammie's World started as a way for Rede to age regress and the fact Kammie's World has most of Rede's fetish material in it we can deduct that Rede has a fetish for age regressing from this. This also adds more proof to Rede being a pedo knowing she uses age regression as a fetish and adds all her other fetishes to it.

NEW

Fun fact: Kammie's World was a happy little accident. It started as a sort of age regression thing to deal with the stress of my teenage years. (That's why I used to represent myself as Kammie, before I created a separate Theresa OC.) I didn't think I'd ever do more than just a few drawings of the funni yello gurl at first. But over time, it found a life of its own, and became a whole world of OC fantasy. And I wouldn't want it any other way.

This might not be the end of it either, Rede hides a lot of her fetishes behind her perceived quirkiness and there might be more out there that shows Rede being a sick bastard, but for now, Rede is a massive creep and pedo who gets off to omorashi, underaged panty shots, sex trafficking, flat breasts, age regression, and little girls menstruation.

Rede doxes Cryptobros (2021)

If you knew Rede during the AttackofTheCatPeople DeviantArt era then, chances are you would have known about Rede's massive hate boner for NFTs. It was everywhere and hard to escape from in Rede's circles. It got really annoying, really quickly.

Rede's NFT hate went really far, like really really far, for example they would often call crypto NFT people "groomers" despite them actually being innocent and just making products for a certain niche, it is also ironic that Rede says that they are groomers since Rede has made a lot of underaged fetish content, which makes them closer to a groomer than than said NFT people.

Lego & Pokemon Are Making Their Way Into Blockchain & Digital Assets

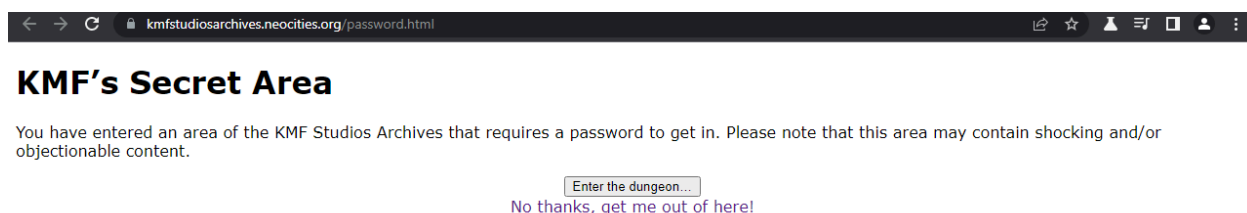

Lego and Pokemon: Two iconic brands that have captured the hearts and imaginations of millions of people worldwide. And now, they're both making their way into the world of blockchain and digital assets.

Rede even threatened to send the creator of the Cheezburger Cat meme, Eric Nagasaki and image of Zippocat (Which is basically a lost video with some surviving screenshots of a cat burning alive), all because he decided to make NFTs.

That isn't the worst thing Rede did involving the cryptobros however, as on her website she did something truly gross. For the longest time on Rede's website there was a secret page that lead to something called "Operation NFTfall" which asked the user to input a code on a website.

Operation NFTfall

SUPER SECRET CODE (do NOT enter this into any page archiving websites): h6v2j

When you went to archive.is and entered the code as a part of the url you would be lead to a page filled with several twitter users personal information. Her doxxing skills are also genuinely

poor, so not all of the info is all that accurate and it can be assumed that innocent people were unnecessarily targeted because of Rede's rampage.

If you think that wasn't unacceptable enough, she has threatened to (and even actually did (See the Piklok argument for her doxxing Piklok)) doxx people. Rede mainly uses IP loggers and word of mouth to try to doxx people, oftentimes these are just threats but Rede doesn't understand how serious doxxing can be and why that is the wrong thing to do. Rede really thinks ruining someone's life because of holding their personal information ransom is a perfect way of stopping DA argument but in reality it just shows how sick Rede is. Rede's own website even has an IP logger on it, showing how far Rede can go.

KMF's secret omorashi stash

If you have been granted access to this page, then I trust you as a friend, and I expect you not to leak (no pun intended) these images to anyone else. Scroll down for the goods you expected...

omorashpics.html

You seriously expected more “receipts” here? Get bent.

Your IP address has been logged. Don't fuck with random people on the Internet on a whim; you don't know what they could do to you in return. Let this teach you a lesson. Next time, try leaving people alone for a change. Or, better yet, LOG OFF and TOUCH GRASS.

Once you click a shady link, you can't just unclick it. You brought this upon yourself when your morbid curiosity overpowered your bare-bones knowledge of basic internet safety, so you let your guard down and not only clicked on a link that promised omorashi porn of prepubescent cartoon aliens, but fully expected to actually SEE said omorashi porn of prepubescent cartoon aliens, instead of whatever content I actually threw together on that page (such as, say, an IP logger embedded in a Goatse image).

Fuck around, find out.

All of this doxxing stuff shows how Rede is willing to do anything to win their stupid argument wars, even if it is reprehensible and shows how Rede is no better or even worse than the people she fights with.

SyncedUp.png (2022)

“SyncedUp.png” refers to an infamous drawing created by Rede, which would go into specific detail about the experiences of their explicitly-underage characters' menstrual cycles, while desperately trying to deny that the contents were produced with the intent of self-titillation.

©2022 KMF

I know I'll get at least SOME hate for this. Here goes.

Just wanted to show this old trope off with some of my characters. As you can see, "Aunt Flo" isn't being too kind to the (older) Harrison girls.

* Katie normally: Likes doing sports, and is good at soccer and skating. Period!Katie: Has massive cramps so bad she can't get up from her bed.

* Kammie normally: Friendly and likes animals. Period!Kammie: Whiny and bitchy, and shoos the family cats away from her.

* Kamelia normally: Likes soap operas, hates it when you change the channel, and sometimes turns into a weregiantess when annoyed. Period!Kamelia: Doesn't care what's on TV, and falls asleep in front of it more often. Also turns into a weregiantess MUCH more often.

* Taylor normally: Kinda dumb and derpy, but has a heart of gold. Period!Taylor: Locks herself in the bathroom and cries for hours.

* Kimberly normally: A talented artist for her age. Period!Kimberly: Burnt out; has massive art block and can't even get a rough sketch started.

Before you start bitching at me that "she isn't a preteen yet": Yeah, I KNOW Kimberly is canonically 9. Groovian girls start their periods at age 9-10ish. Why? Because I wanted to show that they aren't quite the same as humans. (My idea is that they're insect-bug-alien-things.) (BTW, in case you're wondering: the usual age for menopause in groovians is 70-75 years old.)

If you're wondering why Kamryn isn't on here, it's because she's trans (biologically AMAB/XY), and therefore, lacks the required infrastructure to GET periods. (She WOULD have wet dreams instead, if she wasn't taking puberty-blockers.) And Kittie is a weird floating angel-demon hybrid, NOT a groovian; even then, she would go into heat instead of getting periods anyway, because angels and demons reproduce more like cats or dogs than like humans or groovians. (And even then, she won't start until age 21 or something, as the puberty stage in both angels and demons takes longer to start.)

Also, before you ask, it's NOT a fetish thing, OK? I'm a sex-repulsed asexual. I just made this because I kinda like the whole "synced-up periods" trope. And at least I'm not showing them bleeding through their fucking clothes (but I still put an "ideologically sensitive" warning anyway, because periods are still considered kinda taboo).

The image itself would receive massive backlash, and would ultimately result in Rede deleting the art piece in question, but she continues to whine about it on a regular basis.

The IRL Toadette and Turbomin 05/16/2023 3:43 PM

ITTL, I actually decided to stick with the Alexis OCs as well as bringing back Kammie and friends, which means some of the more questionable AOTCP-era drawings (such as "Synced Up") never happened. (edited)

In fact, some of Rede's most recent drawings call back to the syncedup.png incident. For instance, "The Blood Moon Event" reuses the "blood-related incident that flips personalities" theme from syncedup.png. Rede even tried to make it a crossover event with other users with no avail.

An idea I had for a story arc crossing over all of the RTSN and Luckieverse OCs. Basically Discording from MLPFIM S2 + When Day Breaks from SCP + werewolves from classic horror stories + Z-Day from NationStates.

The Blood Moon event only happens once every 1,305,021 years. It basically flips everyone's personalities. (For example, Kammie is normally a calm animal-loving girl, but under the effects of the Blood Moon, she's a psychopath.)

I had the idea of "multiple characters simultaneously get flipped personalities" a long time before this; in fact, in July of last year; but that went in a direction I don't wanna talk about. That was poorly received, to say the least, and the concept went back to the drawing board, eventually being realized as this about a year-and-a-half later.

Terri and Kammie under the effects of the Blood Moon!

Terri normally: A nice person whose best friend, Kammie, is a symbiote.

Terri under the Blood Moon: An anti-symbiote extremist.

Kammie normally: A cutesy groovian symbiote girl with a soft spot for animals.

Kammie under the Blood Moon: A psychopathic killer vampire.

This event happens once every 1,305,021 years, and lasts about a month plus or minus 2 days. Basically, it's a lunar eclipse, crossed with Nightmare Moon's eternal night, SCP-001 When Day Breaks, the Z-Day Halloween event from NationStates, and the concept of werewolves. The easiest way to avoid getting Bloodmoon'd is to stay indoors, avoid moonlight, and to avoid contact with other Bloodmoon'd people. Of course, this is easier said than done... don't worry, once the event is over, everyone returns to normal, and it's like the Blood Moon never even happened.

I encourage you to make your own OCs under the effects of the Blood Moon. Just remember to use the tag [#BloodMoonCollab](#).

This isn't the most blatant reuse of syncedup.png though as one of Kammie's redesigns includes a symbol on her shirt that is a simplified version of syncedup.png akin to the Loss meme. This goes against the idea of Rede "regretting" Syncedup.png as if she really did regret the picture she would not make any references to it at all.

The Main Bug Yesterday at 11:13 PM

An old friend in a newer style. (BTW, when used in my newer works, Rede/Kammie's age is 21, because that's closer to my actual current age.)

Icon I did.

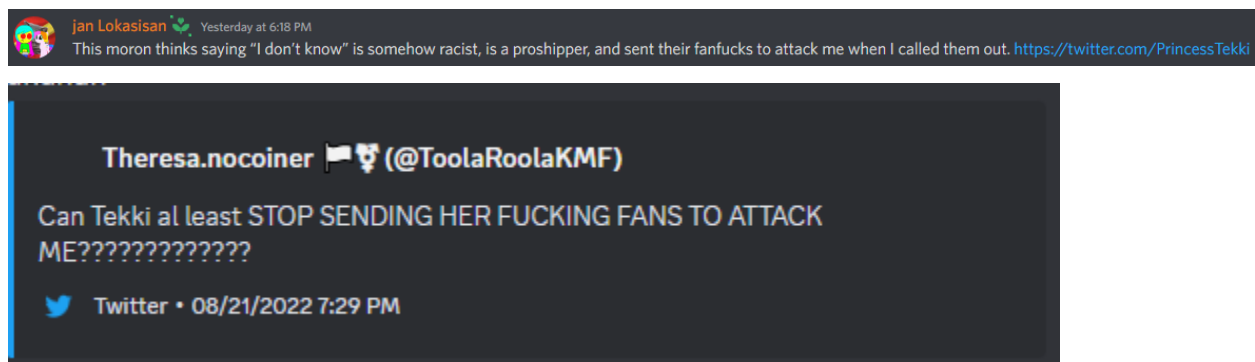

This ends up showcasing how Rede despite claiming to have learned from her “mistakes” she still inserts said “mistakes” into the stuff she makes, ultimately showing that Rede never truly considered it a mistake to begin with.

Rede and PrincessTekki argument (2022)

During 2022, Rede got into some beef with someone known as Tekki the Fairy (@PrincessTekki on Twitter) because of an argument involving “Self-shipping” and “Proshipping” where Rede insulted Tekki because she was shipping herself with Simon from Prozzäk (Who is an adult) and Rede claimed what Tekki did was Proshipping.

After some arguing Rede decided to whine about being “attacked” by Tekki despite that not being the case.

Then out of nowhere Rede decides to suck up to Tekki by heaping her with all kinds of insincere praise, trying to get on to her good side. It overall shows how much of an asskisser Rede is and how she is desperate for approval and apologies without any sincerity from herself.

The following is an interview between one of the writers of this doc and Tekki.

Rede and EmmaZWorld argument (2022)

The EmmaZWorld situation started when Rede mentioned someone named Sakura who was very controversial. She constantly whined about the situation and everyone on the wiki got annoyed with it, Rede would then spread the argument further which also lead to Bepis being banned from the wiki as well.

We need a bureaucrat on our side. If Nova is taken out of service, Mauricio is "de-orbited" from Fuse, Hayden gets what he deserves, and Sakura is restored and promoted to bureaucrat, then Team Mauricio is fuck'd.

It would also be ideal for Wazzup to make a Bureaucrat Demotion Poll for Rolling.

After Bepis's ban off the FNF fanon wiki, Rede decided to go ahead and raid the wiki and EmmaZWorld's Discord server, this even included a scoreboard which included hijacking admin accounts and using them to cause chaos. She even posted slanderous stuff about EmmaZWorld as well. All of this was done to target EmmaZWorld, who was 14 at the time while Rede was 19 years old at that time. Thankfully the only damage done was Rede & Co. spamming stuff in the Spam channel, ultimately doing nothing.

Just watch.

Rede had one final chance to redeem herself to the FNF community, and that was to wait 2 weeks for the situation to settle down and then apologize, but Rede couldn't even do something basic like waiting 2 weeks. So she threw a fit about it and ended up being unredeemable to the FNF community.

BepisMan Today at 5:54 PM

promise you won't do something if they decide to not unban you today?

A Kittenolivian guard Today at 5:55 PM

Fine

BepisMan Today at 5:56 PM

they said in a couple of weeks when the situation passes. but the more you do stuff over it, the longer they would keep you banned.

A Kittenolivian guard Today at 5:57 PM

FFS, I am NOT waiting two fucking weeks. Would rather just make a new Discord account entirely.

BepisMan Today at 5:57 PM

...that's ban evasion

it won't be necessarily 2 weeks, it would be one week if you're waiting patiently

A Kittenolivian guard Today at 5:58 PM

I'm not in any kind of mood to wait patiently. Now, or never.

BepisMan Today at 5:59 PM

Hi,

This is a tricky case, but admins are allowed to ban for off-wiki content if they feel that there is a risk to the wiki's users. They are also allowed to remove any content on the wiki that they think is harmful.

Staff will also review such issues, but as the thread with the accusations has been deleted, we are not going to intervene in this case.

I'm sorry to disappoint.

they said they're going to give it a few weeks since they are still stressed because of past events like you not respecting fuse. like i said before you can deny his apology but don't make extra words because those can upset others. nobody wanted to hear about the drama again.

like what somari said.

...look if you want to come back you have to be patient

they said they are going to give it some time

maybe they'll lessen the time to one week or a few days if you're patient

look @[A Kittenlivian guard](#)

if you're always asking others to ask the admins to unban you then they won't unban you, because today wasn't a good day for them at all because of the current events

and also you would keep saying "fine" but you never actually keep your promise on letting go of emma's server for now. she's stressed right now so that's why she didn't unban you. and you probably would have deleted the invite after you apologized

Seriously, that cunt banned me from her Discord server for not accepting an “apology” from someone who had clearly NOT corrected their actions. Her entire fanbase is an insane cult anyway, and it’s best y’all stay away from it, for your own safety.

After that the argument artificially settled down like every single argument Rede has been apart of, everyone moved on but the damage still lingers on to this day. It overall shows how rabid Rede is with argument.

Rede and DimitriFaustin argument (2022)

A smaller argument that occurred in the middle of 2 of Rede's biggest arguments is the argument with DimitriFaustin. It started with Rede stealing and using Dimitri's countries and

streets, when Dimitri found out about Rede ripping him off, he exposed Rede. In response Rede decided to complain about it.

I used to like the work of [DimitriFaustin](#), and even made my own headcanons regarding it. That was until Dimitri tried to paint me as an “imposter”, “plagiarist”, and “thief” simply for having headcanons. When I told him that I had gotten rid of these headcanons from my wikis, and asked him to stop complaining about it, he blocked me like a coward. It’s not my fault that he keeps doing these stupid ego searches; I don’t ego-search my usernames or OCs, and neither should you.

I would like you guys to beware of the user @/DimitriFaustin. It's a shame; I used to like his art. But recently, he has been doing ego-searches of his fictional US states (Altamasstachia, Mallettbarr, and Zeconnemeleth), and harassing people who use these names in their own timelines through journals. When I noted him to stop harassing me, he blocked me like a coward, claiming that I "wasn't being nice to him". Bullshit. I'm done being polite to this cunt, he thinks anything with a similar name to his own shit is plagiarism. He can go burn in heck for all I care. I'm actually thinking of using his stupid names for fictional rogue countries that got nuked back to the Stone Age in my own OC universe (Kammie's World/KMFverse).

EDIT: DeviantArt algorithm has been kind to me here. Why don't I get the same treatment on my actual art, not just my vent journals?

 BepisMan Today at 6:51 PM
yeah, but he said you accused him of harassing you in his journal
you couldve just told him you deleted it without jumping to conclusions and calling him a harasser

 A Kittenolivian guard Today at 6:53 PM
But he jumped to conclusions and called me a plagiarist.

 BepisMan Today at 6:53 PM
that was before you deleted the pages

He doubled down after I deleted them.

 @A Kittenolivian guard He just blocked me instead of explaining what language I should have used instead.

 somari-theadventurer Today at 6:53 PM
You are not elaborating more - i know the actual reason why it could be harassing
Didn't Mr. Uncreative talk about this shit for like 2 months?

 BepisMan Today at 6:53 PM
because you said to him he was harassing you, i saw the note and it said to "just delete the pages, thanks"

Those toddlerbrained names being stolen must be deep in their head

 A Kittenolivian guard Today at 6:54 PM
He keeps ego-searching.

 BepisMan Today at 6:54 PM
how did he steal them?

 @BepisMan Well yeah, but where did you get the names of the states? @A Kittenolivian guard

 A Kittenolivian guard Today at 7:01 PM
I TOOK INSPIRATION from his shit since I used to respect the guy and look up to him. (Not anymore of course)

 BepisMan Today at 7:02 PM
...he said in his journal about the names which you took for your states, maybe you would've said a different name for them
look, you probably would've changed the names. Maybe he noticed that his name was still on your pages or whatever. Did he note you after the two month thing?

 A Kittenolivian guard Today at 7:03 PM
I just deleted all traces of his shitty worldbuilding from my own stuff, since he wants to be a drama queen about it. (edited)

 BepisMan Today at 7:04 PM
Yes, but you didn't need to include him being a harasser in your note to him. You would've just said "gone" and thats it.

 A Kittenolivian guard Today at 7:04 PM
He still owes me an apology for making these fucking journals even AFTER I removed my headcanons of his shit.

 BepisMan Today at 7:05 PM
hes still "bitching about it" because you said he harassed you in your note to him.

 A Kittenolivian guard Today at 7:06 PM

Made this part out of a desire for better worldbuilding for KW, and part out of a desire to system-shock a certain "DF" the next time he does an egosearch.

The main antagonists of Kammie's World The Movie (KWTM). They, led by a Hitler-expy known as Dear Leader Fautsin, kidnap a lot of the main love-interests (Nathan, Felicia, etc.) for a psychological experiment, and Kammie, Xandra, and Reichtangle have to team up to stop them, as some things are way too far even for Reichtangle.

BepisMan Today at 1:19 AM

i thought we would move on from this..

he kept noting you about the copyright thing correct?

[@A Kittenolivian guard](#)

and besides, remember when you made 4 kw villains based on the 2019 stuff and then changed their names to be different from the users?

A Kittenolivian guard Today at 1:23 AM

I need better villains than some gang of loser popular girls like the Gang of Four.

BepisMan Today at 1:23 AM

okay, but the name of the villain, should it be different from dimitri's?

 **BepisMan** he kept noting you about the copyright thing correct?

BepisMan Today at 1:24 AM

also, is that right? he kept noting you every single day or smth?

 **@BepisMan** also, is that right? he kept noting you every single day or smth?

Every few weeks.

 **BepisMan** i thought we would move on from this..

BepisMan Today at 1:24 AM

also i thought you wanted to move on

A Kittenolivian guard Today at 1:25 AM

If he comes across the deviations, tell him it's a coincidence that the pedophilic Neo-Nazi I came up with for a villain has the same name as him.

BepisMan Today at 1:26 AM

what if he doesn't believe you?

...i think it would start drama no matter what if you keep posting deviations about him
even if he was whiny

A Kittenolivian guard Today at 1:26 AM

I'm allowed to make my villains based on real users. It gives them a little flair.

BepisMan Today at 1:26 AM

yeah, but you changed the name on the ocs based on users you argued with in 2019, why not that oc?

A Kittenolivian guard Today at 1:27 AM

Because the Dimitri stuff is more recent. Parody is protected under Fair Use.

BepisMan Today at 1:27 AM

yeah, but still he will find it, and the coincidence thing he won't believe because it's recent (edited)

A Kittenolivian guard Today at 1:28 AM

I know, that's actually why I picked the name, to [REDACTED].

BepisMan Today at 1:29 AM

he's just gonna make another journal on you, just like how you called him a harasser in notes, and then drama will start.
and then you will lose watchers.

because more people will find out about the drama if it gets intense. (edited)

A Kittenolivian guard Today at 1:29 AM

I survived Ckurkunt trying to drag me down into his personal shit. I will survive this.

BepisMan Today at 1:30 AM

ok whatever. maybe he would've noted you once with "if you don't remove or rename then consequences like [REDACTED] (no offense)"

A Kittenolivian guard Today at 1:31 AM

If he threatens me personally, then I change the name of the villain and the fascist country the villain leads.

BepisMan Today at 1:31 AM

wait, egosearching? did he note you about different things?

A Kittenolivian guard Today at 1:32 AM

He admitted to egosearching his stupid made-up names multiple times in his journals.

BepisMan Today at 1:32 AM

...wait he did? like the december 8 one?

A Kittenolivian guard Today at 1:32 AM

Yeah, egosearching is when you search for your own username, real name, OCs' names, etc. to find any criticism of yourself. I know MUCH BETTER than to do that.

BepisMan Today at 4:57 PM

@BepisMan he took down the reply now

A Kittenolivian guard Today at 5:02 PM

GOOD

It overall shows how Rede is willing to villainize you and make you seem like a monster for slight criticism. We are lucky that Rede didn't go further with the slander campaign, unlike the next argument we are going to talk about, where not only did that happen but way worse stuff occurred as well.

Rede and PMZ argument (2023)

PMZthePoopyhead, nowadays known as ChrysalisCacoon, or as he will be referred to as for short PMZ, is someone who knew about Rede since the RedeKamafa era but cut ties with Rede in the AttackofTheCatPeople era. The reason for PMZ cutting ties with Rede was that he found out about Rede's actions from before this (See every section before this one). When Rede found out about PMZ cutting ties with her, Rede in response went furious. She went as far as making hate art and even making PMZ a villian in Kammie's World. Rede also falsely accused PMZ of drawing R34 despite that not being on his profile, only being extremely mildly suggestive, if even that. PMZ was 15 at the time and Rede was 19.

(VENT) Oh fucking GREAT.

 @21597jtl Well, you have a tendency to call out those who draw kiddie characters in fetish art, and you had to come across it at some point,

I only came across it because I was doing some inspections after she blocked me
And it's funny, she's still in the kammiesworld group
Should I b& her from the group for *lese majeste*?

 21597jtl Today at 4:02 AM
Like I said, even before she blocked you, there was the chance that you ran into the hot trash and blocked her.
Did not expect you to reveal secret doings of someone who suddenly face-heel turns after it happens.

 A Kittenolivian guard Today at 4:02 AM
I didn't block her
I checked

 21597jtl Today at 4:04 AM
What I meant was instead of her blocking you, you forcefully parted ways after finding the trash.
She must've seen you make vent posts of Rupert, Nexus, Nyan, etc. and I'm pretty sure she thought she'd be next.

 A Kittenolivian guard Today at 4:05 AM
I forgave Rupert and Nexus

 21597jtl Today at 4:05 AM
But it's unlikely you'll re-earn her trust -- or for her to re-earn yours -- after your discovery.

 A Kittenolivian guard Today at 4:06 AM
Oh
She is 15, she shouldn't be drawing that crap
I also drew weird stuff when I was a teenager. Big mistake. (edited)

 21597jtl Today at 4:07 AM
That sh!t's gonna stagnate her image for quite a while...

 A Kittenolivian guard Today at 4:07 AM
Yeah
I made a status update catching her in 4K.
I was gonna lay the drama to rest, but a 15-year-old should not be drawing R34

After Rede's harassment towards PMZ, PMZ understandably got very upset at the harassment Rede pulled. Rede instead of properly apologizing she got her butt buddies to "comfort" PMZ and defend Rede. Rede later made her insincere apologies which only got her hate from everyone who saw past her lies. Rede later closed the AttackofTheCatPeople DA account after realizing people were not being fooled by the apologies.

...look, I'm sorry for the shit I did in the past, OK? I'm gonna try to be a MUCH better person.

Anyways, I'm gonna go on an indefinite hiatus from DA until further notice.

My other socials are still gonna be active as usual:

Neocities: neocities.org/site/kmfstudiosa...

Scratch: scratch.mit.edu/users/Lolcatis...

Tumblr: www.tumblr.com/blog/kammieswor...

Mastodon: wetdry.world/@lulinks

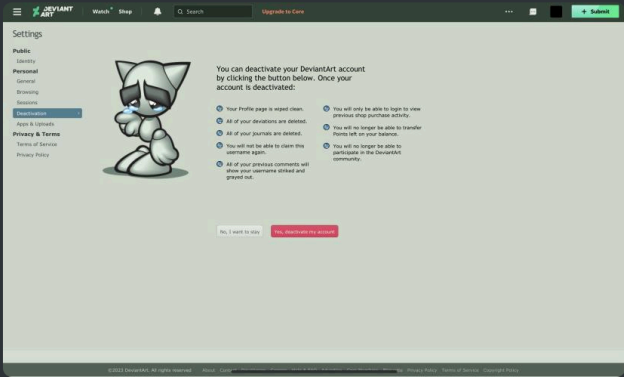

SketchersUnited: sketchersunited.org/users/1605...

Seriously, you guys are the best, and to those of you who don't have socials other than DA, I'll miss you guys a whole lot. Just because this is the end of one chapter, doesn't mean it's the end of the book.

Them leaving is more or less a weak shield and a misconception that they'll be able to recover their good graces with others. Unfortunately, there's usually something more rotten when they publicize their departure so much, to the point the regret feels insincere at best and manipulative at worst. Whatever they do next is going to be seen, since some commentators have already been eyeing their awful nonsense for over a year.

SuperPotato2002 said the following:

geezus sorry if i'm bothering you with this, i don't want to... but if i did sorry

i can feel you about the person, i really don't like what they did either. however they did say they were gonna leave this platform for good, but idk if this would make the situation any better, especially them.

How is leaving DA for good "not changing for the better"?

 Reply  

BracketNeutron37 Edited just now

Her leaving a dumb site isn't any bit indicative of bettering themselves. Besides, some things they've done, like the Toadette piss thing and some stuff she referenced for already messed up art (reportedly they referenced images of kids having periods for at least one, very disgusting and indefensible), along with the doxxing of crypto weirdos really aren't things you can easily recover from. She's much more focused on saving face and promoting the Kammie brand rather than truly owning up to their failures. She simply needs to accept not everyone will forgive her, especially when a lot of what she's done can't be erased and shouldn't be forgiven to begin with.

We know you are, you're in a bad mood RN.

Just take a time-out to take your mind off it.

Later, after the closure of the DeviantArt account, Rede would try to pin the blame on PMZ rather than admit she was at fault. This would result in making up a non-existent Kammie's World fandom which would also form the term "KammieBrat", she would even go as far as calling PMZ her "abuser". Rede would also take her hatred out on Xandra, temporarily "retiring" her and replacing her with Xena A beaten up version of Xandra. Given Xandra is said by Rede to be a "Token Black" character according to Rede, there could be some racist intentions behind the design. All of it was for nothing though as Xena would get trashed and Xandra would return, showing how artificial Rede made the argument.

A Kittenolivian guard Today at 4:26 PM

Yeah, even though I regret the haterot towards PMZ, she still hid behind an army of whiteknights instead of speaking up for herself with her own side of the story - EXACTLY like how I used to behave in the Rede Era. Hypocrisy much? (edited)

A Kittenolivian guard Today at 5:51 PM

I fucking trusted that PMZ bitch, even giving her early access to my then-new DA during the Rede/AOTCP transition, only for her to throw me under the bus just as my biggest A-log had finally logged off and I had let my guard down.... In retrospect, it's HELLA SUS that PMZ appeared and claimed to be my biggest fan just as the Crystal Saga was winding down.....

(edited)

I learned a lesson here: DO NOT TRUST RABID FANS OF KAMMIE'S WORLD. (Yk, these types who ignore the logo, Wikia, and shitposting stuff I also do, as well as my other fandoms like L&BB and WNR, and are only in there for the OCs.) Both of the people who were like that when I first met them ended up turning on me. (edited)

A Kittenolivian guard Today at 5:16 PM

Virgin Kammie's-World-only fan (or the "Kammiebrat"):

- Only in it to get more Kammie's World content, ignores everything else KMF does.
- 9 times out of 10, turns their back on KMF; very rarely evolves to a decent fan (see "Chad" section).
- Usually immature and exhibits several of the same bad traits KMF was known for in the Rede Era.

CHAD KMF SUPPORTER (or the "Theresan"):

- Doesn't care whether the next post is Kammie, Lu, pony, logo, Kadsre, WNR, meme, shitpost, or something else entirely; accepts all facets of KMF's personality.
- Would stick with KMF unconditionally, and accepts her flaws.
- Much more mature than the Kammiebrats, and reflects the good traits modern!KMF has.

It's hella sus that PMZ appeared on the scene and was like "I LIEK UR OCS, WANNA BE FRIENDS???!!!" just as the Crystal Saga was winding down.

A Kittenolivian guard Today at 5:25 PM

I admit, the Kammiebrats exist only because I cultivated them, keeping them fed with a nonstop feed of KW, proto-KW, or quasi-KW content for years through 3 DA and 2 Scratch accounts; not to mention I used the Discord server, several Twitter accounts, and my PFP on nearly every one of my socials at one point, ALL to advertise KW, PLUS the CharacterAI chatbots. Maybe I should've just stuck to logos, then I wouldn't have this Kammiebrat problem, and I would have never met PMZ in the first place. (edited)

Kammiebrats were part of the problem. PMZ (or at least the innocent persona PMZ used while interacting with me: I suspect she may have been not only a mole for ShadowKyurem, but the missing link between SK15's whiteknights and Ckur's comfort circle) was a MAJOR KW fan, and (IIRC) briefly kinned herself with Xandra. (edited)

21597jtl Today at 5:36 PM

Yuck. How TF did selfshipping become normalised!?!

A Kittenolivian guard Today at 5:36 PM

IDK

It's gotten to the point where

I'm thinking of retiring the Xandra character for good, or at least doing a McCree/Cassidy and renaming her to something else.

A Kittenolivian guard Today at 5:43 PM

@here What should I do with the Xandra character? I have realized that the more "immature" side of the KW fandom heavily idolizes Xandra.

- 🚌 - Retire the character, (in TVTropes-speak) "put her on a bus".
- 👤 - Rename the character (pull a McCree/Cassidy or Bright/Shaw situation).
- 💀 - Kill off the character for good.
- 🚫 - Status quo, do nothing.

1

A Kittenolivian guard Today at 7:15 PM

Why the FUCK would ANYONE want to kin Xandra? She's the most two-dimensional (and the most Mary-Sueish) of all my major characters, with only Trevor having less depth. At least Kammie has gotten somewhat of a personality as an overconfident heroine who lets her exploits get to her head. Xandra's whole character is "Kammie's best friend and also Felicia's GF". I can understand if you want to be Naxunkin, Ulyssakin, Yingtaikin, heck, even Anyakin. But Xandrakin just confuses me. (edited)

Of course, since Xandra is this perfect prissy princess with no flaws whatsoever, my younger fans adore her. I made Yingtai a major character solely so the younger fans would have someone to project themselves on (most immature of Kammie's friend group, likes being random, and still sleeps with a plushie), and they STILL flock to Xandra. (edited)

A Kittenolivian guard Today at 7:26 PM

I left DA not only because of the drama, but because of my braindead fans. The Xandra kinnies, logo kids, GoBrats, and other immature pieces of shit that are a MASSIVE stain on the RTSN and KMFSN's collective reputation. (edited)

A Kittenolivian guard Today at 7:35 PM

Maybe I'll go the Dr. Elias Shaw route: memory-hole Xandra and replace her with a brand-new, somewhat similar but still quite different, character (let's say "Xena") with much more of a personality than just being Kammie's lackey and Felicia's girltoy. (edited)

Obsessed with a fictional character from a video game? Check. Claims that her content is SFW and safe for kids, but very publicly indulges in weird fetishes? Check. Hides behind a wall of whiteknights and dickriders rather than speaking up for herself? Check.

BracketNeutron Today at 10:35 AM

Some things aren't really bad enough for someone's reputation to be permanently ruined for, especially if they are well in the past. However, not only has some of KMF's action been inexcusable regardless of time (like the very gross fixation of periods and puberty she had), but also that instead of actually trying to better herself, she's dwelling so much on how to protect her brand image that can't really be saved anyway. The cryptobro doxing is something that also can't be ignored, since even if they were bad people, it puts them in greater danger than anyone deserves. I'm also not keen on her using IP loggers. But again, this is mostly happening now because PMZ cut ties because of the doxing and KMF's very bitter about it from what I'm seeing. (edited)

The PMZ argument shows how Rede puts all the blame on to others, makes up fake stuff about argument, and refuses to be reasonable under any situation. Both this argument and the EmmaZWorld argument show how Rede can't handle being around minors at all.

Recurring incidents with Grimagikooopa (2023)

Sometime during April 2023, a preschool show named “Lu and the Bally Bunch” premiered in Canada, the UK and New Zealand. Despite it being nothing more than a generic show about insect children learning social skills in preschool, Rede decided to make it their entire personality, and would actively shoehorn this obsession into every one of its projects and concepts. [It went as far as Rede attempting to astroturf a fandom surrounding it as the spiritual successor to the Brony fandom, coining terms such as “invertebro” and “invertebrette” and even proposing a booru site dedicated to the show, despite it largely having no following.](#)

KMF's LuLinks directory - kulupu lipu e pipi Lu

#LUANDTHEBALLYBUNCHSWEEP

Terminology (en)

- **Invertebro** - a male fan of *Lu and the Bally Bunch*.
- **Invertebrette** - a female fan of *Lu and the Bally Bunch*.
- **Enbyrtebrate** - a non-binary fan of *Lu and the Bally Bunch*.
- **Invertebrat** - gender-neutral term for a fan of *Lu and the Bally Bunch*.

Convention schedule

2023

- **September 30-October 3**: NYC Toy Fair
 - In all likelihood, if there is a Lu toyline, it will probably be revealed here. Basically ComicCon but for toys.
- **October 13-19**: MipJunior/MipCom Cannes
 - This is where the production companies from around the world showcase new shows, and that means a high chance of L&TB material.

2024

- **April 15-17**: MipTV Cannes
 - Basically a smaller-scale MipCom - to the proper MipCom as the Winter Olympics are to the Summer Olympics.

24/7

- **365 days a year**: TaoBao/TMall
 - Basically a online inventory clearout for Chinese companies, including toy manufacturers. Since 99.99% of toys are manufactured in China as of this writing, this should probably be checked religiously for any and all signs of L&TB toys.

News

- September 4, 2023: **SEASON 1B HYPE TRAIN**
- June 19, 2023: Season 2 (or so I assume) leaked thanks to the Australian Broadcasting Company deciding to put the first 3 episodes up earlier than CBC or TVNZ.

One user, who goes by the name Grimagikooopa, would grow irritated at Rede's fixation on this show. On July 13th, 2023, after Rede [without permission] inserted references to *Lu* into his creations on Fandom wikis, Grim expressed his grievances he had towards this unhealthy

obsession by means of a rant, sent to her by DM:

okay. i know this is really weird considering that today i already sent you like 3 or 4 something angry messages about your lurot (but i deleted them to send this instead), and i know this is the nicest way i can put it, but for the sweet and gracious love of allah **CAN YOU SHUT THE FUCK UP ABOUT LU?** it is literally an obscure irish-canadian preschool show that will be forgotten in about 2 years time and only remembered by people who were toddlers or young children in 2023 and reminisce on it like "hey do you remember that one show about bugs?" but ofc nobody else. but you may say "BUT DERE IZ EI FANBEIS OF IT ON SCRATCH!!11". that is because of you and somebody else, who by the way, **once did inflation.** and yes, i know that unikitty was talking about it from the 2020 pilot. but then she probably forgot about it for almost 3 years afterwards.

i genuinley don't know how you have managed to make this completely average preschool show that won't achieve "sagwa in el kadsre" popularity your **ENTIRE PERSONALITY.** it's not even a brainrot for it at this point. your lurot is like **the rapidly decaying brain of a senile dementia patient.** and i know that sounds really mean, and i know that's what ihu told me, but unfortunately, i'm sorry but it's **true.**

you have to insert it into ANYTHING and EVERYTHING you see, and you have to make TONS of fucking fictional countries out of it. the capital city of En Passant was once called "Ballybug" but you claimed it was a parody of EK. then you took THAT capital city name and used it as the name of some sort of scandinavian island country and then claimed THAT was a Warrior Cats parody. and now you have to take your extreme goddamn brainrot for Lu and **go ahead and invade the Aventia wiki.** you once WITHOUT MY CONSENT added L&tBB to the shows aired on NRTN K. and i know it's weird to finish off in a middle of a listing like this, but seriously, there's definetley **more** that you've done.

and yes, i get it, you used to be a fan of TBoM. yes i get it. you can still like L&tBB, but YOU DON'T NEED TO MAKE IT YOUR ENTIRE FUCKING PERSONALITY. i have been banned from Nyan's discord server **TWICE** now because of this shit, and you continue to constantly pester me in DMs about something i am not intersted in and you have made your entire fucking personality.

BUT WORST OF ALL IS THE FACT THAT **SOMETIMES YOU CLAIM I HATE LU.** I DON'T, I JUST FIND YOUR OBSESSION WITH IT **REALLY FUCKING ANNOYING.** remember june 7th and june 8th? and also you claim that my fictional country, Neonia, hates lu aswell. and you think that i will suddenly **commit a violent war crime** if you even bother to MENTION it. and that really pisses me off.

you can still like the show, but **CAN YOU STOP INSERTING IT INTO LITERALLY EVERYTHING (LIKE YOU CLAIM I DO WITH GODZILLAND)?** i am actually running out of my fucking patience with you and i don't think i can hold on to this very much longer.

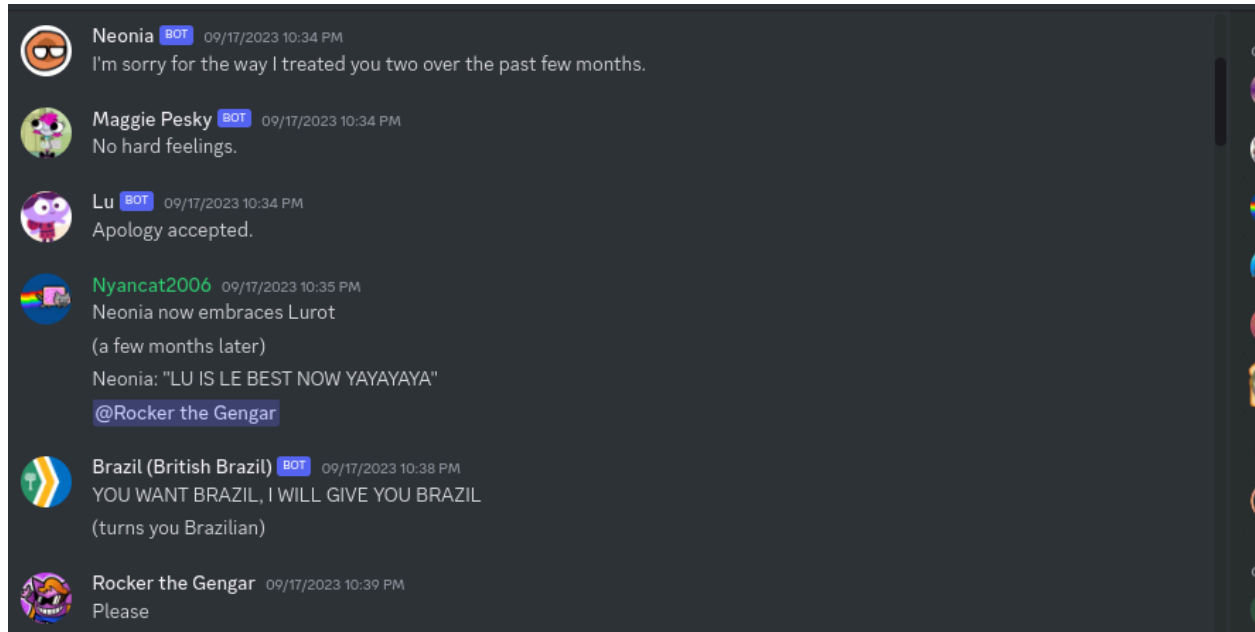

i know what i wrote sounds really aggressive, but it's honetsly the nicest way i can put it. i don't hate you, but i'm just fed up right now. pls don't cause any further drama about this

thanks

TL;DR: stop shoving lu into everything (but you can still like it, just stop being so fucking annoying about it and learn to accept that sometimes brainrots get out of hand)

As is par for the course, Rede wouldn't take this negative sentiment towards their obsession lightly at all. They started to harass and deliberately provoke him, and would soon block him

from various wikis as the situation escalated (involving those communities in unwanted discourse in the process). Friendly reminder that Rede is a grown adult (born July 20th, 2003), while Grim was at the time 13 (born February 2nd, 2010), so this was Rede punching down with an age gap of **7** years. Rede would also try to hijack Grim's own fictional world building by shoehorning their obsession into a hypothetical country of his, which is known as Neonia, with the help of accomplice Nyancat2006. If any of this didn't come off as antagonistic enough, Rede would also force words into Grim's mouth by insinuating that Neonia is in opposition to the show.

The rivalry with Piklok started when Rede started to constantly feed the trolls.

Final response to Piklok

FUCK YOU. No, seriously, FUCK. YOU.

You fucking KNOW how much I dislike being called "Rede". You're not allowed to call me that. Go fuck yourself with a rusty coathanger.

Also, I only bring up the omorashi and period stuff nowadays to MAKE. FUN. OF. MY. PAST. I was a teenager at the time, I didn't know any better.

And also: whining about interpersonal drama from years ago makes you no fucking better. Cry about it lmao.

Plus: you literally called my comfort show a "StUpId BaBy ShOw". That means you're a fucking GoAnimate kid. LEARN. TO. HANDLE. OPINIONS.

You got kicked out of the RTSN, KMFSN, and their affiliated groups for leaking DMs to my stalkers. That is UNFORGIVABLE. All your hand-wringing about drama from 5 zillion years ago ain't gonna change any minds. Elinery, Wazzupguys, and Brownie are all on my side, and these people aren't even major parts of RTSN/KMFSN, compared to these like Rupert, Cuben, Nexus, Sogga, JTL, and Nyan. Not to mention that eeD and Tajfrat - two KMFSNers who hate each other's guts normally - agree that you're in the wrong here.

In fact, it's a strange "CoInCiDeNcE" that ya released that doc after I cut your ass off for leaking my shit, AND you had failed to deflect the blame onto KBOS/CuddlyRainbowGuardian.

Just leave me alone, stop trying to damage my reputation, and accept that you're not gonna be forgiven by all but a few parts of the RTSN/DLFW/WNR/Gapla-ripoff sphere. Nobody fucking cares about "MUH OMORASHI" anymore. Get the bloody hell over it.

And finally, YOU FUCKING TURNED DIFFERENTHISTORY WIKI - A PLACE I THOUGHT WAS A SAFE HAVEN WHEN THINGS GOT ROUGH - AGAINST ME. And to add salt in the wound, you GOT THEM TO UNBAN JUSTTHERE AS WELL, even though Justthere was banned for a fucking REASON. FUCKING BURN. You have NO FUCKING IDEA how much emotional pain you have caused me with your heckin' callouterino. I was forced to give my OCs - my babies - to a friend of mine in a failed attempt to get ya off my back. Get a fucking life, REDE GET. A. FUCKING. LIFE.

Mana and Amaya (2024)

From early 2024, KMF became obsessed with a mundane, obscure Scratch webseries entitled "Mana and Amaya." While this hobby seemed harmless at first, it devolved quite rapidly.

In some projects, she would randomly add a character named Moishe Oofnik from Rechov Sumsum, who is owned by Sesame Workshop, into her projects:

MANA & AMAYA THE MOVIE

START MOVIE

Mana & Amaya

However, this isn't the worst part.

On January 14th, 2024, she made a project, based on the "Wacky Packages" series of trading cards, containing **child gore**, and uploaded it to Scratch, a site primarily used by young children (many of whom were following Rede at the time of the content's release), claiming it was a

“joke.”

COPYRIGHT 2007 TOPPS CO., LTD.

PRINTED IN USA

Every time people criticized how it was child gore, she would whinge and claim it was an “obvious joke”:

@The Main Toadette in exile An obvious joke.

Eventually, after being pressured, she took down the project, however the fact that she not only endorses but posts things like this on Scratch, a website for children, shows a lot about her character.

Rivalry with [baws] and ToastsIt

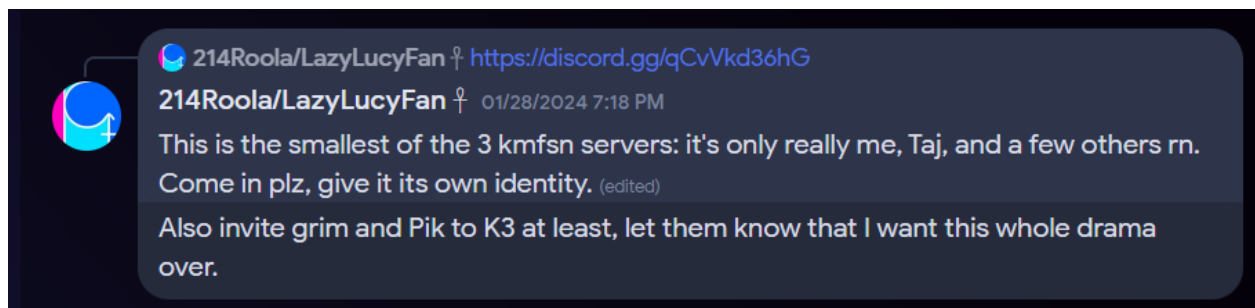

Out of anger towards “[baws],” also known as KBOS2004, Rede went as low as to compare her to someone she was groomed by, a user notoriously known as “geoshea.”

However, later on, it was revealed by a person known as “fly” that “Baws” was in fact acting similar to “Geo.”

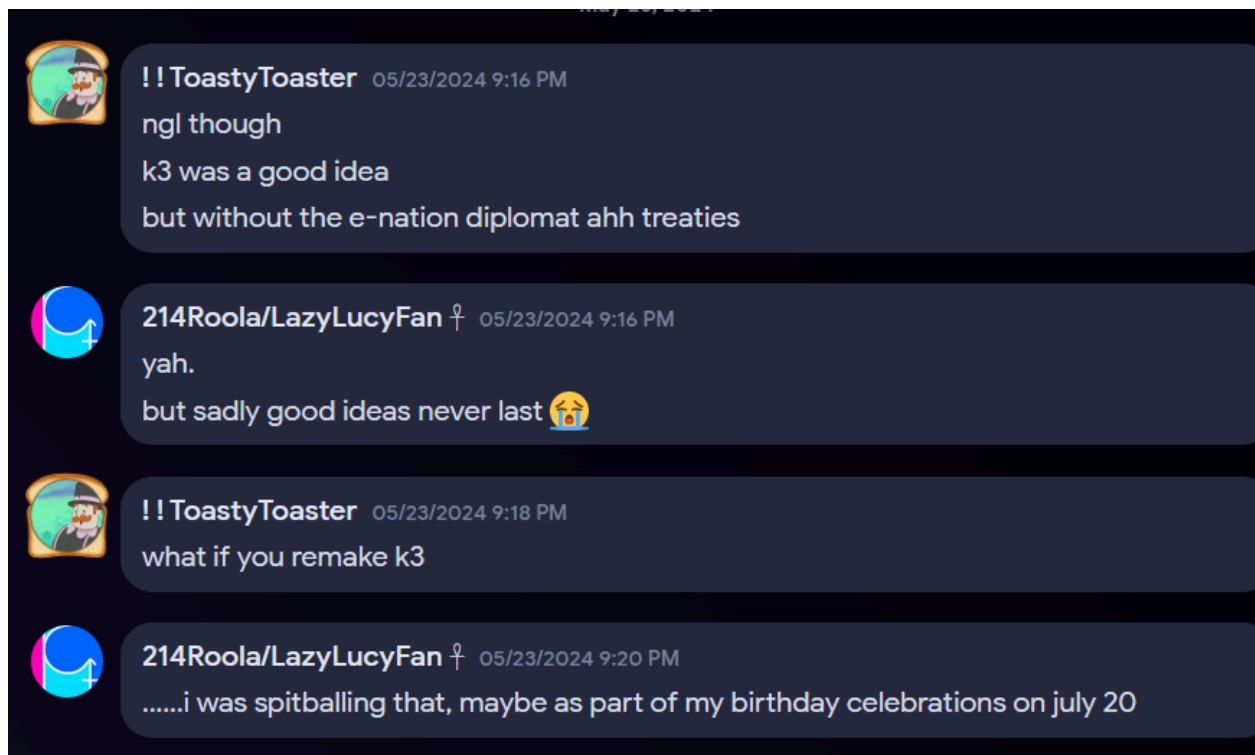

K3 and T4 (2024)

On January 28th, 2024, KMF created a new server titled K3 and invited Piklok, Aiden, Bepis and such to it.

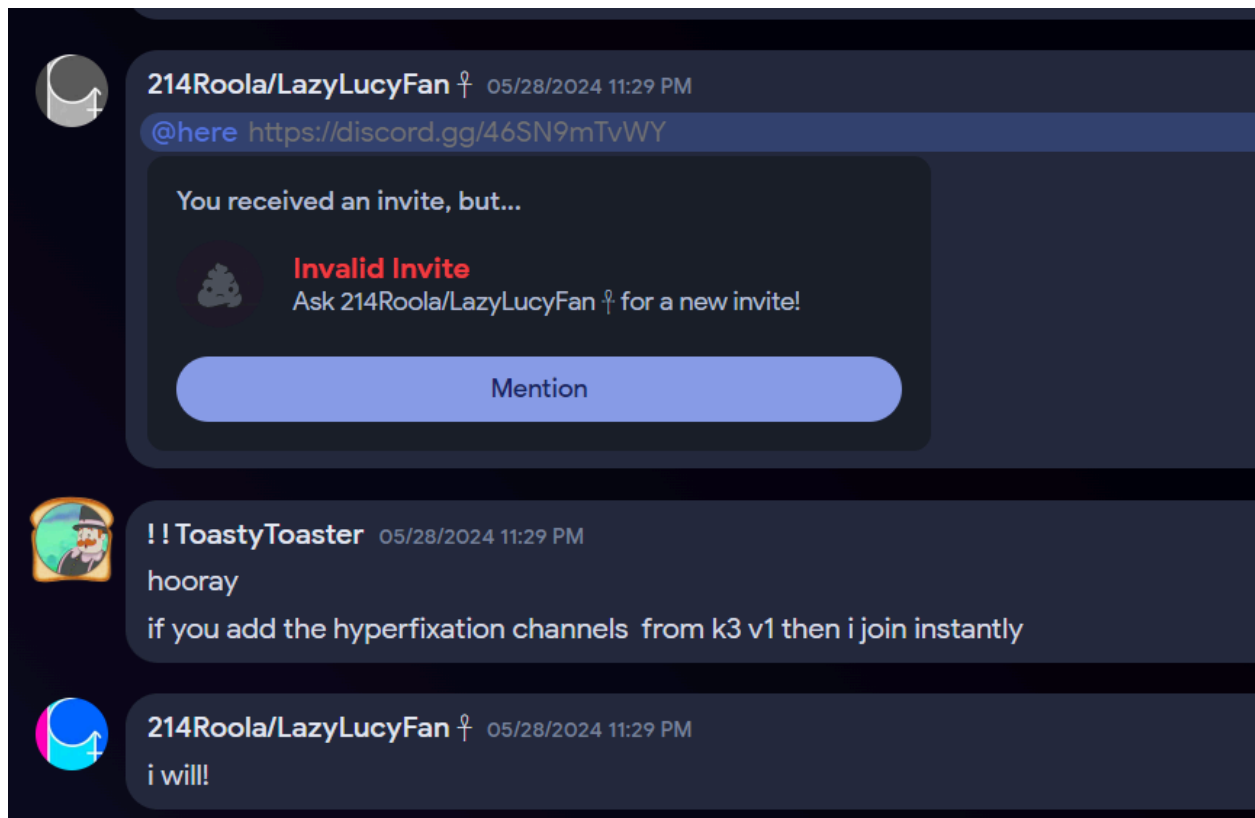

This original server has unfortunately become lost media due to failure of archival.

On May 23rd, 2024, almost 4 months later, ToastsIt decided K3 was a good idea after all and attempted to convince KMF to create a rebooted version.

Eventually on May 28th, she created the server, known as K3.11.

And oh boy, shit really hit the fan there.

First of all, she included a Godzilland channel, proving she still has Grim in her head, and a Lu channel, disproving any claims of her not liking the show anymore.

In another server, one of Toast's friends, EnglishCompany, pretended to be interested in *Lu*, in order to garner a negative reaction from Rede.

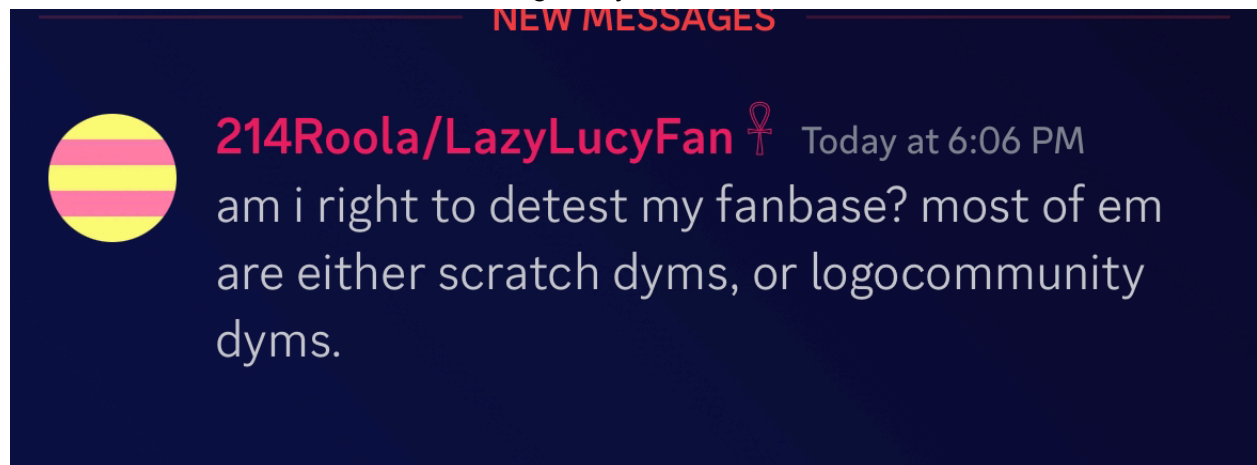

Her reaction proves she cannot handle any opinions on the shows she "hates".

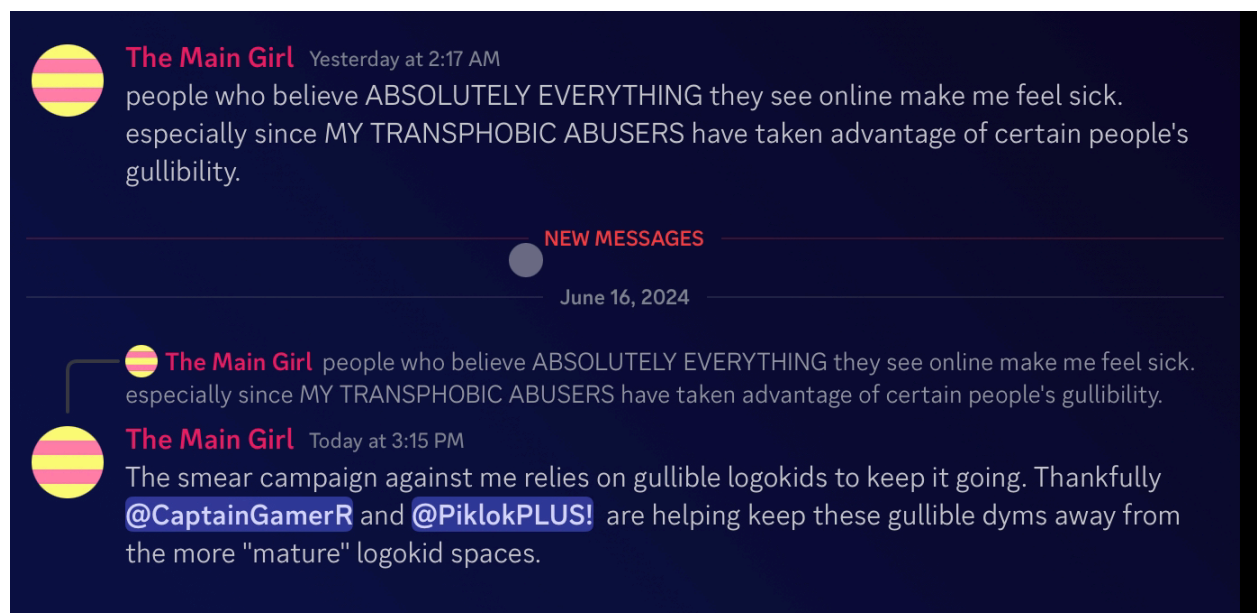

This went into K3 as well. (Toast was playing along and knew they were faking it.)

In the server she would also inflate her ego! Yay!

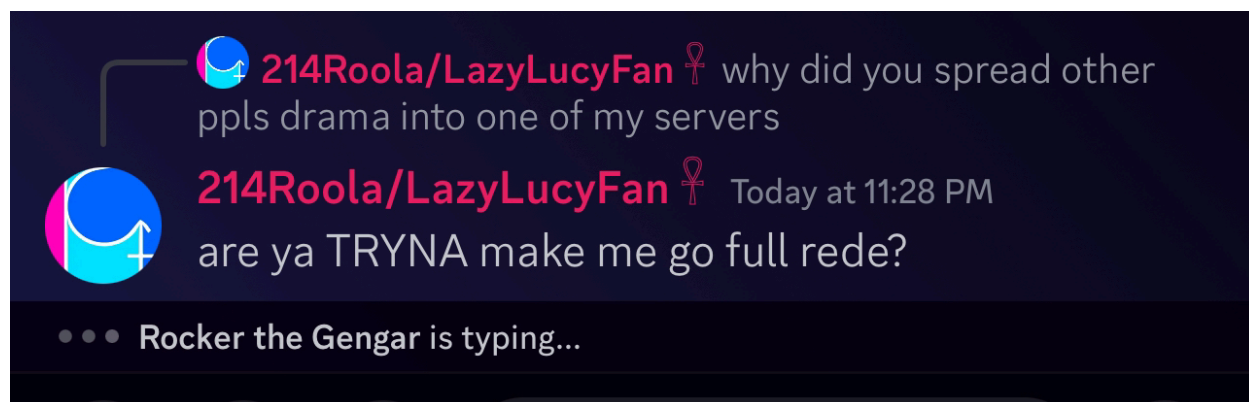

She also likened people who hate her to “transphobes,” having also claimed that the Rede name itself was a “deadname” of hers.

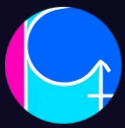

(The writer of this doc is nonbinary, fun fact).

Eventually, on the night of June 28th, there was an extremely petty argument, during which Rede threatened to go back to her old ways...

...then tried to shift the blame on others as usual:

Eventually, after a few hours, the server got deleted.

Between the time of K3's deletion and T4's creation, Rede became obsessed with Hurricane Beryl, which made landfall in North America at the time, and made a fictional country inspired by it:

214Roola/LazyLucyFan ♀ Today at 5:31 PM

Following this, Rede made a reference to the angry message sent to her by Grim in mid-2023, proving she would rather complain about her detractors than move on:

214Roola/LazyLucyFan ♀ Today at 12:14 AM

ctxt?

A few moments later, Toast decides to make a server to monitor Rede and her friends named T4:

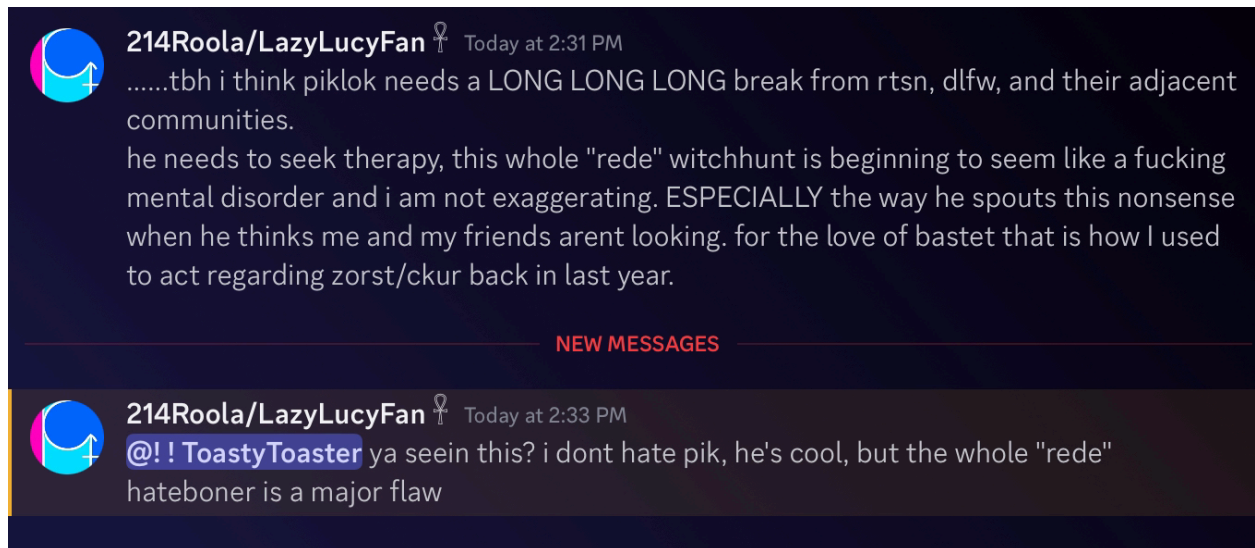

!! ToastyToaster 06/30/2024 12:58 AM

good idea

what if i made a server to spy on kmf and her friends
named it t4

and see how much shit goes down there

Meanwhile, Rede decides to blame someone else for her problems:

Eventually, the T4 server is created.

And oh boy, it's even more of a disaster than the original K3!

For starters, Rede decides to let her ego go to its highest point; first, by pretending Luot is a disease and attacking people who like it:

@214Roola/LazyLucyFan † "Officer, I swear they were talking to me!" 📷

Conflict with programlara (2025)

Recently in October 2025, KMF got into an altercation with an 18-year-old, someone 3 years younger than her, on Discord named “programlara” over her cutting ties with KMF after finding out what she did. KMF and her whiteknights then began harassing her.

@{-❤️Lara❤️-} Fine. yes. everything that happened was real. And yes, there was GENUINE footage of her doing it.

But like I said, she was young and care-free back then. not to mention deranged.

Terri Dubé ♀ 💖 💙 💙 10:06 PM

@{- 💖 Lara 💖 -} I should remind you that you stubbornly stuck by JJproduction for years and years, until it became quite obvious that he was unforgivable.

As a result, I doubt your refusal to forgive me for drama from 2 years ago (that all parties involved want to move on from; Piklok, one of the doc's co-authors, forgave me loooong ago), or your concurrent refusal to back off of trying to expose Teloach (a fucking MINOR) when you're a grown ass woman, is gonna change any minds, sorry to say it.

{- 💖 Lara 💖 -} 💖 DB 10:07 PM

I cut ties with JJ already after I was manipulated by him.

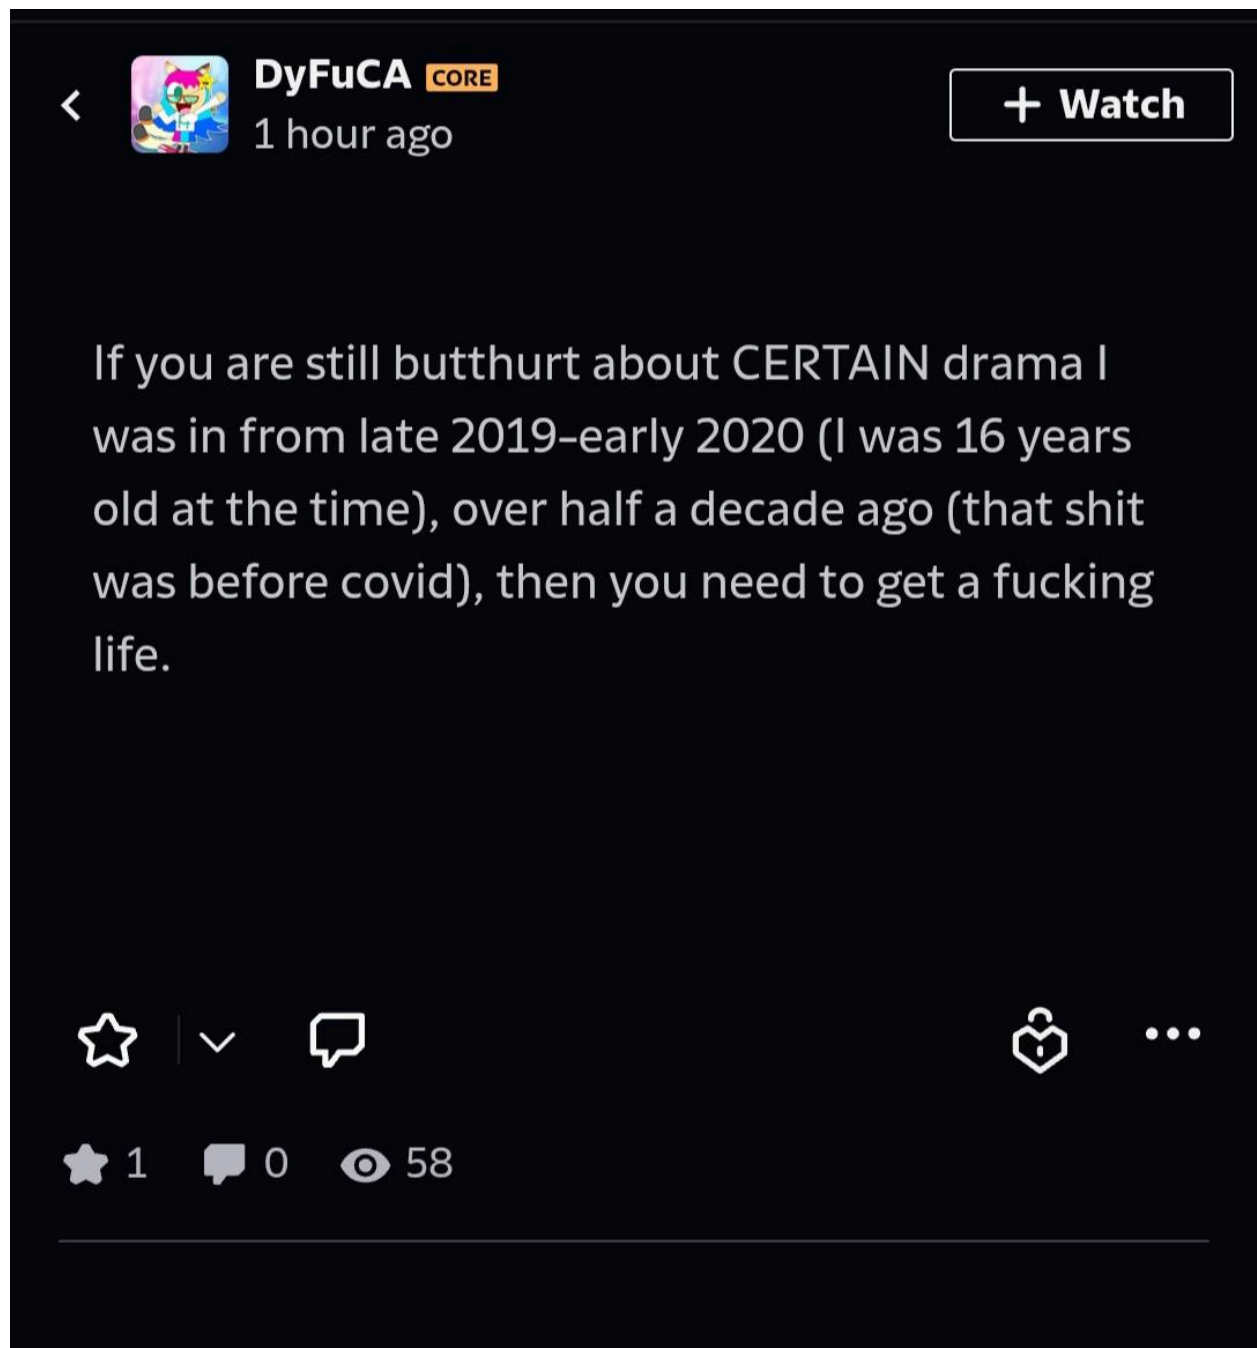

Falsely claiming that the authors of this doc are transphobes despite the fact that the person who created it is literally nonbinary and (formerly) an FtM who uses he/they pronouns??

Nyancat2006 2:14 AM

You've been deceived by transphobes. Still talking about it is equivalent to beating a dead horse and everyone involved in the drama wants to move on from it.

Yet another lame excuse:

They then continue to harass her:

(no subject)

Who gave you that "KMF Exposed" doc?

Also, none of the evidence is relevant in this day and age - the drama ended in January last year.

Additionally, she has made her own apology.

Re: (no subject)

Needless to say, you've made a grave mistake of your own by believing everything that's been told by that doc.

Unblock her and disown the doc, and in return Terri will delete her statuses out of you.

Deal?

Lara, how would you like it if someone dug up stupid shit *you* did when you were younger, long before the COVID pandemic, and used it to smear *you* as a pedophile?

By the way, Rede is dating Nexus, who is a pedophile and has underage cartoon character porn in his favorites on DA.
